THE MISSING LINK BETWEEN WASHING & WAXING.

Keep cars looking sharp everyday.

1) Mist On
2) Spread Quickly
3) Turn Towel - Wipe Dry

Meguiar's® Quik Detailer® keeps a waxed car looking "just waxed." Clear coat safe, Meguiar's Quik Detailer removes harmful contaminants before they damage your finish. Use Quik Detailer right after your car is sprayed by a water sprinkler, hit by a bird dropping, or exposed to any other condition that ruins your "just waxed" appearance. The safe, high lubricity formula lifts off dirt and grime without scratching while enhancing gloss without build up. Details a full-size car in less than 15 minutes. Use it in the garage, at work, or on the road.

IT'S TIME TO RE-WAX WHEN QUIK DETAILER IS SLOW TO WIPE OFF.

DIRECTIONS: SHAKE WELL. Make sure your car is cool and in the shade. Spray QUIK DETAILER onto one section at a time, keeping nozzle about two feet from surface. Quickly spread product with a soft, clean terry cloth towel or microfiber. Turn to a dry portion of towel and wipe dry. Return to damp portion of cloth for each initial wipe, repeat this process on each section. Don't let product self-dry.

CAUTION: CONTENTS UNDER PRESSURE: Do not puncture, incinerate, or store in direct sunlight or keep in temperatures about 120 degrees F. Do not place near heat source, as high temperatures may cause container to burst. KEEP OUT OF REACH OF CHILDREN.

FIRST AID: In case of contact with skin wash affected area with soap and water. In case of contact with eyes, immediately flush with water for 15 minutes. If irritation persists, contact a physician immediately. Use with adequate ventilation. Provide oxygen or fresh air if overcome by vapor. Deliberately concentrating and inhaling the vapors of the contents may be harmful or fatal.
