Staff Report
For
Reformulated Gasoline: Proposed Phase 1 Specifications

Prepared by:

Fuels Section
Criteria Pollutants Branch
Stationary Source Division
Air Resources Board

August 1990

This report has been prepared by the staff of the California Air Resources Board. Publication does not signify that the contents reflect the views and policies of the Air Resources Board, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.

ACKNOWLEDGMENTS

This report was prepared with the assistance of the staff from other divisions at the Air Resources Board. In addition, we would like to acknowledge the cooperation of the Western States Petroleum Association and member companies, the automobile manufacturing companies, the American Independent Refiners Association and member companies, and additives manufacturers. We would particularly like to thank:

for

Reformulated Gasoline: Proposed Phase 1 Specifications

TABLE OF CONTENTS

Contents | Page

I. INTRODUCTION AND SUMMARY....1

A. Report Summary....1
1. What is the general approach proposed by the ARB staff for gasoline specifications?....1
2. Why is the staff proposing gasoline specifications in 2 phases?....2
3. Why does the ARB need to take action?....2
4. What factors did the staff consider in the development of the specifications?....3
5. What is the staff proposing for the Phase 1 specifications?....5
6. What is the staff considering for Phase 2 gasoline specifications?....6
7. About this report....6

B. Recommendation....7

II. PROPOSAL FOR REID VAPOR PRESSURE OF MOTOR VEHICLE GASOLINE....8

A. Introduction....8
1. Background....8
2. California Clean Air Act Requirements....8
3. U.S. EPA Action....8

B. Discussion of Proposed Regulation....10
1. Legal Authority....10
2. Proposed RVP Limit....11
3. Regulatory Control Periods....11
4. Treatment of Blends Containing Ethanol....12
5. Regulated Activities....12
6. Test Methods....13
7. Variance Provision....14

C. VOC Emissions and VOC Emissions Reductions Due To RVP Reduction....14

D. Effect of RVP Reduction on Vehicle Performance....15

E. Cost of RVP Reduction....17

F. Other Environmental Impacts....18

TABLE OF CONTENTS con't

Contents | Page

III. PROPOSAL FOR DEPOSIT CONTROL ADDITIVES....19
A. Introduction....19
1. California Clean Air Act (CCAA) Requirements....19
2. Status of Today's Gasoline....19
3. Vehicle Certification Testing....19
B. Types of Additives and Detergents....20
1. Carburetor Detergents....20
2. Port Fuel Injector (PFI) Deposit Control Additives....20
3. Intake Valve Deposit (IVD) Control Additives....20
C. Effects of Deposits on Engine Performance....21
1. Carburetor....21
a. Formation of Carburetor Deposits....21
b. Effects of Carburetor Deposits on Emissions....21
2. Port Fuel Injector Systems....22
a. Formation of Port Fuel Injector (PFI) Deposits....22
b. Effects of PFI Deposits on Engine Performance....22
c. Effects of PFI Deposits on Exhaust Emissions....23
3. Intake Valves....23
a. Formation of Intake Valve Deposits....23
b. Effects of Intake Valve Deposits on Engine Performance....26
c. Effects of Intake Valve Deposits on Emissions....26
D. Discussion of Proposal for Deposit Control Additives....30
1. Certification Requirement Criteria....30
2. Performance Criteria....30
3. Other Performance Standards....31
4. Certification Application....31
5. Revocation of Certification....32
6. Regulated Activities....32
7. Recordkeeping Requirements....33
E. Cost of Deposit Control Additives....33
F. Impacts of Proposed Regulation....34
1. Emission Impacts....34
2. Benefits of Deposit Control Additives....34
3. Adverse Impacts of Deposit Control Additives....35
4. Economic Impacts....35
5. Other Environmental Impacts....36

IV. PROPOSAL TO ELIMINATE LEADED GASOLINE IN CALIFORNIA....37

A. Introduction....37
1. Air Resources Board's Lead Program....38
2. U.S. EPA's Lead Program....38

TABLE OF CONTENTS con't

Contents | Page

B. Trends in Gasoline Production and Lead Usage.....40
C. Discussion of the Proposed Regulation.....42
D. Emissions and Emissions Reductions.....43
E. Economic and Environmental Impacts.....44
1. Cost of the Proposed Regulation.....44
2. Environmental Impacts.....45

V. PHASE 2 PROGRAM.....46

A. Potential Federal Actions on Fuel Specifications.....46
B. ARB's Evaluation of Options for Phase 2.....48
C. Ongoing Studies.....49
D. Program to Evaluate Gasoline Properties.....50

EXHIBITS

Exhibit 1: BMW - 10,000 Miles Intake Valve Test Procedures

Exhibit 2: Test Method For Evaluating Port Fuel Injector (PFI) Deposits in Vehicle Engines

Exhibit 3: Carburetor Cleanliness Test Procedure

APPENDICES

Appendix A
Proposed Adoption of Section 2251.5 of the California Code of Regulation - RVP of Gasoline Sold After January 1, 1992; Proposed Amendments to Section 2251 of the California Code of Regulations - RVP of Gasoline

Appendix B
Proposed Adoption of Regulation Deposit Control Additives in Motor Vehicle Gasoline

Appendix C
Proposed Amendments of Section 2252.2 - Lead in Gasoline; Proposed Adoption of 2253.4 - Lead in Gasoline; Proposed Amendments to Section 2252 - Sulfur Content of Gasoline and of Motor Vehicle Diesel Fuel Sold in the South Coast Air Basin or Ventura County Before October 1, 1993; and Proposed Amendments to Section 2254 - Manganese Additive Content
