Mr. Eric Riffle
Principle Engineer, Vapor Recovery Development and Support Group
SSE Division
Gilbarco, Inc.
P.O. Box 22087
Greensboro, North Carolina 27420-2087

Dear Mr. Riffle:

Thank you for your letter dated January 07, 2002, in which Gilbarco, Inc. (formerly Marconi Commerce Systems, Inc.) requests the California Air Resources Board (CARB) approval to remove the dispenser mounted solenoid vapor valve(s) installed on the VaporVac® system currently certified by CARB Executive Order G-70-150-AE.

Gilbarco's Product Service Bulletin (PSB), dated April 18, 2002, along with the Laboratory Test Report on vapor piping pressure drop with and without the solenoid vapor valve (submitted via email on May 7, 2002) have demonstrated that Gilbarco will provide sufficient information to facilitate installation of the new piping configuration.

Based upon this information, CARB approves the removal of the dispenser mounted solenoid vapor valve(s) currently installed on the VaporVac system certified on Executive Order G-70-150-AE. This approval includes 6-pack and uni-hose dispensers.

If you have questions, please contact either Paul Marzilli at (916) 445-7431 or email at pmarzill@arb.ca.gov or Laura McKinney at (916) 327-0900.

Sincerely,

William V. Loscutoff, Chief
Monitoring and Laboratory Division
