5400 Orange Avenue, Suite #125
Cypress, California 90630

#95-34

Dear Mr. Elevi:

Approval of the Wayne Vista 580 Series Dispensers

You requested California Air Resources Board (CARB) certification of the Wayne Vista 580 Series dispensers for use with balance type vapor recovery systems.

The Vista 580 Series dispensers are similar to the Wayne Vista 585 Series dispensers. The Vista 585 Series dispensers were CARB certified on October 4, 1991. They are listed in Executive Order G-70-52-AM. The vapor piping of the Vista 580 Series units is the same as that in the approved Vista 585 dispensers (one hose per side), but varies in the number of products available. The Vista 580 dispensers shall only be used with Exhibit 10 compatible equipment and configurations as listed in Executive Order G-70-52-AM.

As required by the Air Resources Board certification procedures, you requested the approval of the Division of Occupational Safety and Health, the Office of the State Fire Marshal and the Department of Food and Agriculture, Division of Measurement Standards. The necessary approvals have been obtained from these agencies.

I find that the use of the 580 Series dispensers, when installed in accordance with the manufacturer's instructions and the conditions listed above, will not adversely affect the performance of balance type vapor recovery systems on which they are installed. Therefore, the Wayne Vista 580 Series dispensers are approved for use with CARB certified Exhibit 10 balance Phase II vapor recovery systems.

Should you have any questions or need further assistance, please contact Mr. Basharat Iqbal at (916) 324-7343 or Ms. Laura Sullivan McKinney at (916) 327-1525.

Sincerely,

James J. Morgester, Chief
Compliance Division
