

SETTLEMENT AGREEMENT

This Settlement Agreement (Agreement) is entered into by and between the California Air Resources Board (ARB), with its principal office at 1001 I Street, Sacramento, California, and Blue Ribbon Products, Inc. (Blue Ribbon) with its principal place of business at: 7687 Winton Drive, #130, Indianapolis, Indiana.

RECITALS

1. ARB alleges that from October 2009 to August 20, 2014, Blue Ribbon sold, supplied, and offered for sale in California a product named Plexi-Clean that subjects to the volatile organic compound (VOC) limit for "General Purpose Cleaner" category in Title 17, California Code of Regulations (CCR), section 94509(a).
2. ARB alleges that the Plexi-Clean product referenced in recital paragraph 1 contained concentrations of VOCs exceeding the 4 percent State standard for products manufactured on or after December 31, 2004 and exceeding the 0.5 percent State standard for those products manufactured on or after December 31, 2012, under the "General Purpose Cleaner: nonaerosol" category specified in Title 17, CCR, section 94509(a).
3. ARB alleges that the Plexi-Clean product referenced in recital paragraphs 1 and 2 used codes indicating the dates of manufactures but did not file explanations of the codes on an annual basis beginning in 2006, as required in section 94512(c) Administrative requirements, Additional Product Dating Requirements
4. ARB alleges that if the allegations described in recital paragraphs 1, 2, and 3 were proven, civil penalties could be imposed against Blue Ribbon as provided in Health and Safety Code Sections 42402 et seq. for each and every unit involved in the violations.
5. Blue Ribbon admits the allegations described in recital paragraphs 1, 2, and 3, but denies any liabilities resulting from said allegations.
6. The parties agree to resolve this matter completely by means of this Agreement, without the need for formal litigation.

Therefore, the parties agree as follows:

TERMS AND CONDITIONS

1. Blue Ribbon shall not sell, supply, offer for sale for use in California any consumer products in violation of ARB consumer products regulations set forth in Title 17, CCR, Section 94500 et seq. however, the terms and conditions set forth

in this agreement will remain valid and enforceable notwithstanding any future violations that may occur.

2. Blue Ribbon in settlement of the above-described violations of Title 17, CCR, sections 94509(a) and 94512(c) agrees to pay a penalty in the amount of \$6,300.00 payable to the California Air Pollution Control Fund, with an initial payment of \$2,100 concurrent with the execution of this Agreement, and followed by 2 additional \$2,100 payments due every 60 days.
3. This settlement shall apply to and be binding upon Blue Ribbon and its officers, directors, receivers, trustees, employees, successors and assignees, subsidiary and parent corporations and upon ARB and any successor agency that may have responsibility for and jurisdiction over the subject matter of this settlement.
4. The parties stipulate that this Agreement shall be the final resolution of ARB claims regarding the above-described violations and shall have the same res judicata effect as a judgment in terms of acting as bar to any civil action by ARB against Blue Ribbon, its officers, directors, receivers, trustees, employees, successors and assignees, subsidiary and parent corporations. This Agreement shall be deemed the recovery of civil penalties for purposes of precluding subsequent criminal action as provided in Health and Safety Code section 42400.7(a).
5. This Agreement shall be interpreted and enforced in accordance with the laws of the State of California, without regard to California's choice of law rules.
6. This Agreement constitutes the entire agreement and understanding between ARB and Blue Ribbon concerning the claims and settlement in this Agreement, and this Agreement fully supersedes and replaces any and all prior negotiations and agreement of any kind or nature, whether written or oral, between ARB and Blue Ribbon concerning these claims.
7. No agreement to modify, amend, extend, supersede, terminate, or discharge this Agreement, or any portion thereof, shall be valid or enforceable unless it is in writing and signed by all parties to this Agreement.
8. Each of the undersigned represents and warrants that he or she has full power and authority to enter into this Agreement.
9. **SB 1402 Statement.** California Health and Safety Code (HSC) section 39619.7 (Senate Bill 1402 - Dutton, Chapter 413, statutes of 2010) requires ARB to provide information on the basis for the penalties it seeks. This Settlement Agreement includes this information, which is also summarized here.

The provision of law the penalty is being assessed under and why that provision is most appropriate for that violation.

The penalty provision being applied in this case is HSC section 42402, et seq. because Blue Ribbon sold, supplied, offered for sale, or manufactured for sale consumer products for commerce in California in violation of the Consumer Products Regulations (Title 17 California Code of Regulations (CCR) section 94507, et seq.). The penalty provisions of HSC section 42402, et seq. apply to violations of the Consumer Products Regulations because the regulations were adopted under authority of HSC section 41712 which is in Part 4 of Division 26 of the Health and Safety Code. The penalty provisions of HSC section 42402, et seq. apply to requirements adopted pursuant to Part 4.

The manner in which the penalty amount was determined, including aggravating and mitigating factors and per unit or per vehicle basis for the penalty.

Penalties must be set at levels sufficient to discourage violations. ARB considered all relevant circumstances in determining penalties, including the eight factors specified in HSC section 42403.

Under HSC section 42402, et seq. the penalty for strict liability violations of the Consumer Product Regulations are a maximum of \$1,000 per day of violation, with each day being a separate violation. In cases like this involving unintentional first time alleged violations of the Consumer Product Regulations, the ARB has sought and obtained penalties of approximately \$20,000 per ton of excess emissions of VOCs attributable to the violation. This represents an average cost to retire a ton of volatile organic compound emission credits and reformulate a product to comply with the Consumer Product Regulations. In addition, the ARB has in other similar cases sought and obtained further penalties for procedural violations. The penalty in this case is \$6,300.00 which includes VOC excess emissions and ARB's investigative cost. The penalty in this case was reduced because Blue Ribbon has changed its date-code format to be compliant with the regulation requirements, and has made diligent efforts to comply and cooperate with the investigation. Penalties in future cases might be higher or larger on a per unit basis.

Is the penalty being assessed under a provision of law that prohibits the emission of pollution at a specified level, and, if so a quantification of the excess emissions, if it is practicable to do so.

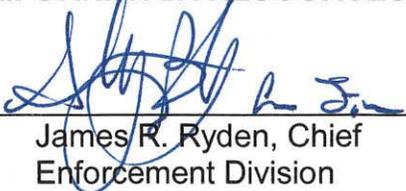

The Consumer Product Regulations do not prohibit emissions above a specific level, but they do limit the concentration of VOCs in regulated products. In this case a quantification of the excess emissions attributable to the violations was practicable because Blue Ribbon provided sales data and product formulation information. Based upon these information (which Blue Ribbon has designated as confidential), the violations were calculated to have caused 0.32 tons of

alleged excess emissions of volatile organic compounds to be emitted to the atmosphere in California.

10. Blue Ribbon acknowledges that ARB has complied with SB1402 in investigating and settling this case. Specifically, ARB has considered all relevant facts, including those listed at HSC section 42403, has explained the manner in which the penalty amount was calculated, has identified the provision of law under which the penalty amount is being assessed and had considered and determined that while this penalty is not being assessed a provision of law that prohibits the emission of pollutants at a specified level, it is practicable for ARB to quantify the excess emissions from the alleged violations, has done so and has included this information in this Settlement Agreement.
11. Final penalties were determined based on the unique circumstances of this matter, considered together with the need to remove any economic benefit from noncompliance the goal of deterring future violations and obtaining swift compliance, the consideration of past penalties in similar negotiated cases, and the potential costs and risk associated with litigating these particular violations.
12. The final penalty in this case was based in part on confidential business information provided by Blue Ribbon that is not retained by ARB in the ordinary course of business. The penalty in this case was also based on confidential settlement communications between ARB and Blue Ribbon that ARB does not retain in the ordinary course of business either. The penalty also, reflects ARB's assessment of the relative strength of its case against Blue Ribbon, the desire to avoid the uncertainty, burden and expense of litigation, obtain swift compliance with the law and remove any unfair advantage that Blue Ribbon may have secured from its actions.
