#91-12

Dear Mr. Freund:

Certification of Morrison #323 Phase I Vapor Adaptor

You requested certification of the Morrison #323 Phase I vapor adaptor. This adaptor is similar to currently certified vapor adaptors. In addition, a Morrison vapor adaptor was on installed on a tank produced by Sannipoli Tank when that tank underwent certification testing.

As required by the Air Resources Board certification and test procedures, you requested the approval of the Division of Occupational Health and Safety, the Office of the State Fire Marshal and the Department of Food and Agriculture, Division of Measurement Standards. The necessary approvals have been obtained from these agencies.

I find that the use of this adaptor will not adversely affect vapor recovery systems on which it may be installed. Therefore, the Morrison #323 vapor adaptor is certified for use with Phase I gasoline vapor recovery systems. If you have any questions, please call Laura McKinney, Associate Air Pollution Specialist, at (916) 327-1525.

Sincerely,

James J. Morgester, Chief
Compliance Division
