Ed St. Amour
Western Regional Manager
Tokheim Corporation
3950 Industrial Blvd. #200C
West Sacramento, CA 95691

#92-11

Dear Mr. St. Amour:

Certification of Tokheim H422, 422, H411 and 411 Dispensers

You requested Air Resources Board certification of the following Tokheim dispensers: H422, 422, H411 and 411. The H prefix designates the high profile model from the low profile model without prefix. The 411 differs from the 422 in that it has a hose and nozzle on only one side.

As required by the Air Resources Board certification procedures, you requested the approval of the Division of Occupational Safety and Health, the Office of the State Fire Marshal and the Department of Food and Agriculture, Division of Measurement Standards. The necessary approvals have been obtained from these agencies.

I find that the Tokheim dispensers described above will not adversely affect vapor recovery systems on which it may be installed. Therefore, the Tokheim H422, 422, H411 and 411 dispensers are certified for use with Phase II gasoline vapor recovery systems. If you have any questions, please call Laura McKinney, Associate Air Pollution Specialist, at (916) 327-1525.

Sincerely,

James J. Morgester, Chief
Compliance Division
