Re: Off Road Diesel Regulations
Hearing July 26, 2007

Dear Sir or Madam:

Please tender these comments to the California Air Resources Board as required by code.

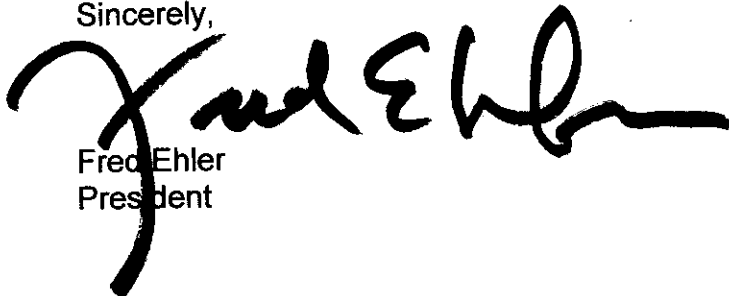

Please find attached the Master Key to my company. Should you, as members of the California Resources Board pass the regulations before you today, July 26, 2007, I will soon be out of business!

Perhaps you will recognize that decimating hundreds and thousands of family-owned business owners is not in the best interest of California.

Last one out, please turn off the lights!

Sincerely,

Fred Ehler
President
