**ATTN: Kathleen Quentin**

**RE: C.A.R.B. Regulation**

Dear, Kathleen

I'm a small business General Engineering Contractor, that employees twenty eight to fifty three employee per year. With the proposed C.A.R.B. regulations my company will not be able to handle the full impact of the current proposed regulations as they stand now. We will be forced to cut crew and staff by Fifty percent in order to handle the new cost of the proposed regulations, as will as the rising cost of insurance and fuels that will impact us all at one time. My concerns are for my employees that will be placed out of work and forced to seek employment in a depressed market, as other contractors will be in the same situation.

I do share the importance of clean quality air that we breathe, but I strongly believe the proposed regulation are to strong for the time frame set for which it is now proposed.

Thank you for taking the time to let me express my concern's for my employees, as will as my self.

If you have any questions please contact me at (530) 795-0132. Looking forward to hear from you.

Sincerely,  
Vintage Paving Company Inc.

Edward Carbahal
