Chair

Dear Chair May Nichols

Please include the following components

in AB 32 Scoping Plan:

- a. We need a well designed cap+trade program, & this should include as many resources as possible at least 80% of CA's global warming pollution should be under cap+trade by 2020.
- b. An industrial source rule to control emissions from development projects
- c. A new renewable portfolio standard to ~~make~~ increase clean energy in our state

Sincerely,
Julia Cato
