RE: Proposed Regulations Regarding Pollution of Diesel Trucks

Dear Sir and Ladies:

I am in receipt of the Monterey Bay Unified air Pollution Control District letter of November 6, 2008 addressed to each of you and expressing the very sound opinions of the Board that the implementation schedules be moderated.

I was formerly General Counsel of Bekins and have represented many small moving and storage companies for over 30 years. These small operators are found in every town in the State and are typically small operations. They are having very "tough sledding" in terms of their businesses with the current recession.

Their few tractors are not big generators of pollutants for they are not long distance over the road operators. These vehicles are usually parked at some customer's home while furniture is loaded or unloaded.

There are hundreds of similar small businesses which need the same relief.

Accordingly, I unqualifiedly endorse the resolution of the Monterey Bay Unified Air Pollution Control District Board.

Very truly yours,

  
Norman S. Marshall
