# ***GASOLINE DISPENSING FACILITIES, PHASE I and II Course #340***

## **Enhanced Vapor Recovery (EVR)**

### **is here!**

As of April 1<sup>st</sup> 2009 13,000

Gas station were required to have

one of the four CARB certified vapor

recovery systems installed. This two

day seminar presents a complete

overview of the gasoline vapor

recovery program. The history,

certification, and testing requirements

are presented. Executive orders,

state laws including revisions to the equipment defects list, and permit

requirements are discussed. The operational theory, the equipment certified,

and installation & compliance inspections are all discussed. Participants will

also conduct field inspections at both a balance and an assist station. In-

Station Diagnostics (ISD), will be discussed.

***August 26 - 27, 2009***
