

## 2011 Meteorological Data DVD Errata

**Errata for Meteorological Database:** In previous releases the scalar wind direction, minutes, and quality fields were loaded into the wrong columns at Santa Rosa-5<sup>th</sup> Street (site 2105). The errata cover the years 1988 to through 2005. The actual corrected data can be downloaded. Upon unzipping the file a pipe delimited text file will result. The column order of the wind direction file is as follows:

site (2105)|  
date (yyyy-mm-dd)|  
start hour (PST)|  
minutes|  
wind direction|  
quality|  
observation type.

**Errata for Meteorological Site Table:** Several corrections have been made to the sites table in the database. To check if a particular site has been corrected download the detailed list. The zipped file contains all the site information in a semicolon delimited file for all the sites in the meteorological database. The column order in the sites file is as follows:

Site;  
name;  
short name;  
air quality system id;  
quality assurance id;  
air quality data id;  
main source;  
met source;  
met id;  
mesowest id;  
county;  
basin;  
ozone 1hour;  
ozone 8hr;  
district;  
state;  
elevation (m);  
latitude (decimal degrees);  
longitude (decimal degrees);  
utm easting zone 10 (m);  
utm northing zone 10 (m);  
utm easting zone 11 (m);  
utm northing zone 11 (m);  
teale albers x;  
teale albers y;  
address;  
city;  
zip code;  
source modified (date);  
merged modified (date);  
original site id.
