Sacramento, California 95812 • www.arb.ca.gov

Arnold Schwarzenegger
Governor

Dear Data Provider:

Thank you for your continued assistance in providing real-time hourly data from your agency's air quality and meteorological monitoring sites. The data that you provide have been extremely valuable for a wide range of AQMIS users. Merged together with data throughout the state, it allows users to view real-time information in their area whether it's a high wildfire season or a calm summer season. From this information, users are able to obtain an understanding of the air quality issues throughout California.

At the Air Resources Board, we merge the information from all data providers and strive to display the most accurate, timely and reliable data possible. We display the data on our Air Quality and Meteorological Information System (AQMIS) web pages which are located at www.arb.ca.gov/airqualitytoday.

In order for us to keep your agency's data accurate and available on a continuous basis, it is imperative that your staff continue to notify us of any changes that may occur on your end. These changes include data file format changes, system/site downtimes, open/closed/moved sites, or any other changes that affect data availability.

If you or your staff have any questions, please feel free to contact us via email at aqmis@arb.ca.gov or alternatively, you may contact Ms. Jagjeet Arce at (916) 324-6749 or via email at jarce@arb.ca.gov.

Sincerely,

/s/

Karen Magliano, Chief
Air Quality Data Branch
Planning and Technical Support Division
