May 25, 2000

9:30 a.m.

00-5-1 **Public Hearing to Consider Adoption of Proposed Amendments to the California Consumer Products Regulation Relating to Aerosol Adhesives**

The Board will consider adopting new proposed VOC limits for aerosol adhesives. The new VOC limits are being proposed by Air Resources Board (ARB) staff in response to Health and Safety Code section 41712(h), which requires the ARB, on or before July 1, 2000, to prepare a study and conduct a public hearing on the feasibility of establishing more stringent standards for aerosol adhesives than the existing 75 percent standard.

00-5-2 **Public Meeting to Consider Modifications to the On-Road Mobile Source Emissions Inventory EMFAC 2000**

The Board will consider approval of the revised inventory for on-road mobile sources as estimated by the EMFAC 2000 model. The revised estimates predict increases in the contribution of motor vehicles to ambient air quality problems.

00-5-3 **Public Meeting to Consider an Informational Report on Air Pollution Trends: Past Progress and Future Challenges**

Staff will brief the Board on the success of controlling several criteria and toxic air pollutants over the last 20 years. The presentation will review the progress in, and prospects for, reducing California's most persistent and pervasive pollutants, and will identify the continuing challenges the Board will face over the next 20 years. This will include a discussion of California's efforts to reach federal and state standards, reduce the risk from exposure to toxic air contaminants, and the State's emissions of global warming gases.

(Agenda is continued on other side)

*A limited number of off-street parking spaces are available in the lot to the west and adjacent to 2020 L Street at a cost of \$3.00 per day. Pay the Security Officer in the lobby after parking (exact change please). Metered and two hour street parking is also available.
