Grant Number: G07GMBT1

This legally binding Proposition 1B: Goods Movement Emission Reduction Program (Program) GRANT AGREEMENT, including Exhibit 1 attached hereto, dated June 9, 2008 (Date), is made and executed between the STATE OF CALIFORNIA, AIR RESOURCES BOARD ("ARB" or "Board") and the BAY AREA AIR QUALITY MANAGEMENT DISTRICT ("Local Agency"). The Program is intended to improve air quality and protect public health through the administration of State incentives for cleaner equipment and technologies associated with freight movement.

The Local Agency agrees to perform the work described in the Program grant application as modified and clarified in ARB Resolution 08-6 and in this Grant Agreement.

I. Term: This Grant Agreement shall be effective as of June 30, 2008 or full execution of this Grant Agreement ("Start Date"), whichever is earlier, and shall continue in full force and effect until such time as all conditions of the Grant Agreement have been met or until June 30, 2019 ("End Date"), whichever is later.

II. Documents incorporated by reference: This Grant Agreement shall incorporate herein by reference the Local Agency Project Application and the Local Agency Resolution provided to ARB as part of the Application. This Grant Agreement shall also incorporate herein by reference ARB Resolution 08-6, the accompanying *Staff Report on Award of Fiscal Year 2007-08 Funds*, ARB Resolution 08-12, the *Final Proposition 1B: Goods Movement Emission Reduction Program Guidelines for Implementation* ("Guidelines") as adopted by the Board on February 28, 2008 and the associated *Final*

Staff Report on Guidelines for Implementation ("Staff Report"), plus any subsequent amendments to those Guidelines that apply to Fiscal Year 2007-2008 funds. The Local Agency is authorized to administer a Local Agency Project according to the requirements in the documents described above.

III. Local agency project description: Subject to the terms and conditions of this Grant Agreement, ARB will provide funding up to the maximum amount of \$17,377,500 (Budget Act Chapters 171 and 172, Statutes 2007 3900-001-6054) to the Bay Area Air Quality Management District to administer a local agency project (Project) in the Bay Area Trade Corridor under the FY2007-08 Program. The Project is administration of Program incentives to equipment owners to upgrade existing heavy-duty diesel trucks in the "Other Truck" source category that haul goods. The Project shall comply with the provisions of this Grant Agreement, Resolution 08-6, Resolution 08-12, the Guidelines, and the Staff Report, as implemented by ARB staff.

IV. Definitions: All terms in this Grant Agreement are as defined in the Guidelines unless otherwise specified in this Grant Agreement.

A. Funding Category-Specific Elements

A.1. Approved project alternatives: The Local Agency may implement the following approved project alternatives, consistent with the Guidelines:

- **Technology alternatives:** For other trucks, the Local Agency shall implement the retrofit, repower, and replacement equipment project options. The Local Agency must make a good faith effort to recruit trucks for each approved equipment project option, and fund all eligible trucks applying for each option up to the minimum number of trucks for that option in Table 1. If the demand for an equipment project option is less than the minimum number of trucks identified in Table 1, the Local Agency must document its efforts and submit documentation to ARB. Upon approval by the Executive Officer, or his or her designee, the Local Agency may then transfer any remaining dollars to other equipment project options awarded to that agency within the truck category as set forth in Table 1.
- **Project implementation approaches and contractors:** Not applicable.
- **Procedure/process alternatives:** Not applicable.
- **Geographic operations:** Not applicable.
- **Lease-to-own option:** The Local Agency may include a lease-to-own component for the replacement projects that complies with the requirements of the Guidelines. The Local Agency shall submit financial and other data detailed in the *Supplemental Application Instructions for Truck Lease-to-Own Programs* posted on ARB's Program website to ARB for review and obtain written ARB approval prior to expenditure of any Program funds for a lease-to-own program.

A.2. Funding and performance benchmarks: Based on the Local Agency application and ARB's funding award, the Local Agency shall complete the minimum number of equipment projects to achieve the estimated emission reductions and be

eligible to receive up to the specified maximum Program funding amounts, as shown in Table 1 below.

Table 1. Program Funding and Performance Benchmarks for Other Trucks

Minimum # Equipment Projects and Funding Cap	Maximum Program Funding Authorized			Estimated		
	Equipment Project Funds	Administrative Funds	Total Funds (Project plus Administrative)	Match Funding and Source	Total Cost of Local Agency Project	Emission Reductions Over Project Life (lbs)
Retrofit: 100 trucks @ \$5,000 per truck	\$500,000	\$827,500 (5% of equipment project funds)	\$17,377,500	\$32,725,000 (private)	\$50,102,500	NOx: 6,810,000 PM: 334,000
Repower: 25 @ \$20,000 per truck	\$500,000					
Replacement: 311 trucks @ \$50,000 per truck	\$15,550,000					

The Local Agency shall not propose to offer Program funding at a level for each equipment project that exceeds the funding caps described in Table 1 and, after reviewing invoices submitted by equipment owners, shall only pay for eligible expenses up to the funding caps identified in Table 1.

A.3. Grant expenditure schedule: ARB shall authorize payment upon approval of a complete and accurate Grant Expenditure Request form and, where applicable, approval of all required reports. At ARB's discretion, these reports may include entry by the Local Agency of equipment project data into an electronic database maintained by ARB. As described in the Guidelines, the Local Agency may request ARB to expend administrative funds according to the schedule in Table 2 and equipment project funds according to the schedule in Table 3:

Table 2. ARB Expenditure of Administrative Funds for Other Trucks

Administrative Funds	Percent of Administrative Funds	Requirements
Initial administrative funds	Up to 50%	May be requested following complete execution of grant agreement.
Additional administrative funds	Remaining	May be requested after 50 percent of the Program funds for equipment projects are liquidated by the Local Agency, or ARB comes within six months of ARB's liquidation deadline, whichever is sooner.

Table 3. ARB Expenditure of Equipment Project Funds for Other Trucks

Equipment Project Funds	Percent of Equipment Project Funds	Requirements
Initial equipment project funds	Up to 100%	May be requested once the Local Agency posts the competitively ranked equipment project list on its website, or within six months of ARB's liquidation deadline as specified in State law, whichever comes first.
Additional equipment project funds	Remaining	May be requested at any time after the initial expenditure from ARB, but no later than six months before ARB's liquidation deadline under State law.

A.4. Project schedule: The Local Agency shall obligate equipment project funds via executed equipment project contracts no later than December 31, 2009. The Local Agency shall verify project completion and close out payment for each truck project within 18 months of Local Agency execution of the equipment project contract. Other requirements applicable to this Local Agency Project that include, but are not limited to, evaluation of equipment projects and reporting to ARB shall continue through the End Date of this Grant Agreement.

Dear Mr. Goldstene,

The Bay Area Air Quality Management District (District) is pleased to accept approximately \$31.5 million in funds from the California Air Resources Board (ARB) under the California Goods Movement Bond.

Attached you will find signed copies of funding agreements for four project categories (Trucks Serving Ports and Intermodal Railyards, Other Trucks, Switcher Locomotives and Harbor Craft). These funds will be utilized to significantly reduce Bay Area residents' exposure to particulate matter and nitrogen oxides that result from the movement of goods.

The District looks forward to our continued partnership in this historic effort to better the lives of California citizens impacted by these emissions.

If you have any questions regarding the attached agreements please feel free to call me or contact Damian Breen, Grants Programs Manager at (415) 749-5041 or dbreen@baaqmd.gov.
