

**PRIORITY DRAYAGE TRUCK ELIGIBILITY LIST**

**December 20, 2011**

At the December 2011 Board Hearing, the Board approved priority drayage funding for truck owners whose truck(s) had a diesel particulate filter installed and was registered in the California Drayage Truck Registry (DTR) by June 30, 2010. Funds are available to replace these drayage trucks during 2012, in advance of the January 2014 Drayage Truck Regulation deadline. Only truck owners that receive a notification letter with an application package from ARB are eligible. The trucks on this searchable list (by license plate number or Vehicle Identification Number (VIN)) will receive a notification letter.
