

Please join us for a webinar on the new

AIRNow-Tech 2.0 Website

Wednesday, January 30, 2013

1:30—3:30 pm

The new AIRNow-Tech 2.0 website was deployed in September with additional updates in January 2013. AIRNow-Tech has been improved to increase efficiency and provide additional features for users. Improvements include the site details and new data query options and outputs. Plus the Navigator tool was extensively redeveloped to increase efficiency.

Natalie LaGuardia, Data Management Center Lead and Sonoma Technology Inc. (STi) meteorologist, will be leading CARPA members through the new site and using wildfire smoke as a case study to demonstrate the new tools for air quality data analysis.
