

Training Courses and Websites

Training is crucial for anyone who may have a role in emergency response, including local government, those providing technical support, and folks in charge of public health messaging. A variety of courses are available through the training branch of the Governor's Office of Emergency Services (OES) and the Federal Emergency Management Administration (FEMA), often at no charge. Below is a list of recommended classes.

Incident Command System (ICS) Courses

OES and the California Specialized Training Institute
