

Never doubt that a small group of thoughtful, committed people can change the world. Indeed, it is the only thing that ever has. ~Margaret Meade

Serving Our community for 62 years

Bill Wygal, Owner

GREEN BUSINESS

Bill's Ace Hardware is concerned about the environment and providing the best possible experience for our customers. As a result, we have installed Ciralight's advanced daylighting technology. This creates a better shopping experience by providing natural sunlight as the primary source of light during daylight hours. It also dramatically reduces our energy consumption and therefore, greenhouse gas emissions. In fact, as a result of utilizing this technology, each year this store will reduce the equivalent of:

127,545	Lbs of Carbon Dioxide
135	Barrels of Oil
6,588	Gallons of Gasoline
29	Tons of Coal

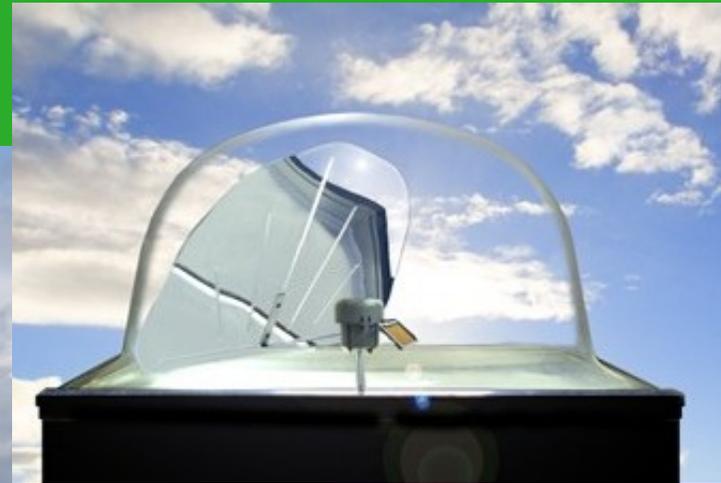

This is just one way that Bill's Ace Hardware contributes to our environment. We hope you enjoy your experience of shopping under natural sunlight and greatly appreciate your business!
