Dear Sir or Madam:

The California Air Resources Board (ARB) staff invites you to participate in a public workshop on ARB's Carbon Capture and Sequestration (CCS) program. Carbon capture and sequestration can reduce lifecycle carbon emissions from fuels by capturing and sequestering CO₂ from fuel production. However, currently CCS projects cannot participate in ARB's Low Carbon Fuel Standard (LCFS) program. Staff is currently developing amendments to the LCFS regulation. As part of these amendments we plan to include provisions and requirements for how CCS projects can participate in the LCFS.

At this workshop, ARB staff will present an overview of activities conducted by the CCS program in 2016, and an initial concept of a Quantification Methodology (QM) and Permanence Protocol for CCS. The QM would define how to account for emission reductions from CCS. The permanence protocol would define what requirements CCS projects would be held to in order to ensure permanent sequestration of CO₂, a prerequisite for CCS projects to participate in the LCFS.

In addition, the workshop will include a presentation by Lawrence Berkeley National Lab on CCS project site requirement recommendations they produced under contract with ARB. There will also be an opportunity for questions, feedback, and presentations by stakeholders and members of the public. Following the workshop, stakeholders and members of the public may send additional feedback.

Prior to the workshop, an agenda, staff presentations, and any supporting information will be posted at <https://www.arb.ca.gov/cc/ccs/meetings/meetings.htm>.

The workshop will be held at the following time and location:

DATE: Monday, May 8, 2017
TIME: 1:00 p.m. to 4:00 p.m.
LOCATION: Sierra Hearing Room
ADDRESS: Cal/EPA Headquarters Building
1001 "I" Street
Sacramento, California 95814

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
