Foam Recovery and Destruction Technical Working Group Informal Meeting

Agenda

Work Group Objective: The purpose of the workgroup is to help develop strategies for reducing greenhouse gas emissions from waste insulating foam.

Meeting Objective: The objective of the first meeting is to introduce workgroup members, discuss data gaps and information needs, and plan next steps to move forward with potential emission reduction programs.

May 6, 2008
1:00 pm. – 3:00 p.m.
Conference Room 350
Cal/EPA Headquarters
1001 I Street, Sacramento, CA 95814

- 1:00 - Introductions
- 1:15 - Foam Recovery and Destruction Program presentation
- 1:30 - What are the data gaps and information needed to understand the feasibility and practical challenges to diverting waste foam from landfills?
- 2:00 - What are the data gaps and information needed to assess emission reductions achieved from foam gases in landfills through attenuation (biodegradation) and landfill gas capture and combustion?
- 2:30 - What additional information or data needs exist that should be addressed before developing potential foam recovery and destruction programs?
- 2:45 - Wrap up and next steps
- 3:00 - Adjourn

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
