Dear Sir or Madam:

The Air Resources Board (ARB) staff invites you to participate in a public workshop to discuss the draft updated statewide greenhouse gas (GHG) emission inventory. Staff will present updated emissions estimates and methodologies for the period 1990-2004. Your input and expertise are requested as ARB staff develops the 1990 statewide emissions level by January 1, 2008, as required under the California Global Warming Solutions Act of 2006 (AB 32; Statutes of 2006, chapter 488).

The workshop will be held at the following time and location:

Date: Monday, August 13, 2007
Time: 9:00 AM – 12:30 PM (Pacific Time)
Location: Sierra Hearing Room
Address: Cal/EPA Headquarters
1001 I Street (2nd floor)
Sacramento, California 95814

An agenda and additional materials will be posted prior to the meeting at ARB's Greenhouse Gas Reporting and Inventory website at <http://www.arb.ca.gov/cc/ccei/ccei.htm> and made available in hard copy at the meeting. Other public meetings regarding ARB's implementation of AB 32 are also being scheduled. Please check ARB's main Climate Change website for details at <http://www.arb.ca.gov/cc/cc.htm>. At the website you may also join our electronic mailing list to receive notices of ARB activities and public meetings related to the implementation of AB 32.

Directions to Cal/EPA Headquarters and public transit information can be found at the Cal/EPA's web site at <http://www.calepa.ca.gov/epabldg/location.htm>. If you have special accommodation or language needs, please contact Ms. Karen Snyder as soon as possible, via phone at (916) 322-5350, or e-mail at ksnyder@arb.ca.gov. TTY/TDD/Speech-to-Speech users may dial 7-1-1 for California Relay Service.

For those unable to attend the workshop in person, a live audio webcast will be available beginning at 9:00 a.m. on August 13, 2007, at <http://www.calepa.ca.gov/broadcast>. During the workshop, the webcast audience will have the opportunity to submit questions and comments by e-mail.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
