Local
Governments
for Sustainability

Supporting the work of mayors and other local government leaders through climate action tools, technical and communications assistance, and peer networking

www.icleiusa.org

“Embarking on an environmental program sounds like a great idea. But if you're a mayor trying to cut greenhouse gases, where do you begin? How do you even know how to measure your current levels? That's where an organization called ICLEI — Local Governments for Sustainability can help.”

--From the article “Mayors Take the Lead” in Newsweek’s 2007 Earth Day issue

Mission

To build, serve and drive a movement of local governments to advance deep reductions in greenhouse gas emissions and achieve tangible improvements in local sustainability.

ICLEI - A Worldwide Movement of Local Governments

11 Offices

68 Countries

6 Continents

- **Climate Change Mitigation**
- **Climate Adaptation / Resilience**
- **Sustainability Performance**

ICLEI USA Network

More than **350 member local governments**
Representing more than **25% of the U.S. population**

A topographic map of the United States, including parts of southern Canada and northern Mexico. The map is overlaid with numerous small white dots, representing the locations of member local governments. The dots are distributed across the entire country, with a higher density in the eastern half and along the West Coast. The map uses shades of green for land and blue for water.
