The Refrigerant Management Program requires that all facilities with large and medium refrigeration systems, those with 200 pounds of refrigerant or more, submit their next Annual Report by March 1, 2017 for their 2016 calendar year refrigeration system leak inspections, leak repairs, and other system servicing for all refrigeration systems containing more than 50 pounds of refrigerant. The payment of the Annual Implementation Fee is also due by March 1 for both the large and medium facilities.

The Refrigerant Management Program also requires that small facilities whose largest refrigeration system contains more than 50 lbs. but less than 200 lbs. of refrigerant must maintain their registration as current and accurate, but are not required to file an Annual Report or pay the Annual Implementation Fee.

Refrigerant distributors, wholesalers, and reclaimers are also required to submit an Annual Report of their 2016 statewide aggregated annual refrigerant sales, transactions, and disposal by the March 1, 2017 due date.

For more details on the requirements of the regulation, please visit the program web page at: www.arb.ca.gov/rmp.
