WORKSHOP NOTICE

Regional Public Workshop for Air Quality Goals in the San Joaquin Valley and California's 2013 Update to AB 32 Scoping Plan

The Air Resources Board (ARB or Board) and San Joaquin Valley Air Pollution Control District (SJVAPCD) invite you to participate in a regional public workshop to discuss air quality issues in the San Joaquin Valley and the proposed 2013 Update to AB 32 Scoping Plan (2013 Update).

The meeting will be held at the following time and place:

Date: Thursday, July 18, 2013
Time: 10:00 a.m. – 3:00 p.m.
Place: San Joaquin Valley Air Pollution Control District Offices
In person:
1990 E. Gettysburg Avenue, Fresno, CA 93726
Video teleconference:
4800 Enterprise Way, Modesto, CA 95356; or
34946 Flyover Court, Bakersfield, CA 93308

SJVAPCD staff will discuss San Joaquin Valley air quality issues and the District's Climate Change Action Plan which includes a number of initiatives to assist local businesses and municipalities in addressing climate change mandates.

ARB staff will provide background on AB 32 and the 2008 AB 32 Scoping Plan, discuss California's vision for the 2013 Update, and present preliminary concepts for updating the Scoping Plan.

The Scoping Plan update focuses on six major sectors where the challenges and rewards of successful future climate action are most compelling: 1) transportation and fuels (including infrastructure and land use); 2) energy generation (including transmission infrastructure and efficiency); 3) waste; 4) water; 5) natural lands; and 6) agriculture. Each of these sectors has cross-cutting themes, integrating our strategic objectives for the health and prosperity of California with the goal of carbon pollution reduction. Staff will provide a brief overview of each sector and summarize some of the major obstacles that we face as we move towards our long-range goals.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

This workshop is one of several public forums that will be held throughout the State to solicit public input during the development of the 2013 Update and to identify local and regionally-specific issues, concerns, and priorities. The agenda and staff presentation material will be distributed prior to the public meeting. Staff's presentations and any associated documents will be posted in advance on ARB's website at: <http://www.arb.ca.gov/cc/scopingplan/scopingplan.htm>.

If you require a special accommodation, please contact one of the staff members listed below as soon as possible, but no later than 5 business days before the scheduled meeting. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

We welcome and encourage your participation in this public meeting. If you have questions regarding the meeting, please contact me at (916) 322-6026 or via e-mail at mtollstr@arb.ca.gov, or Mr. David Mallory, Air Resources Supervisor, at (916) 445-8316 or via e-mail at dmallory@arb.ca.gov.

Sincerely,

/S/

Michael Tollstrup, Chief
Project Assessment Branch
