

California @ 50 Million

# California's Climate Future: The Governor's Environmental Goals and Policy Report

Louise Bedsworth, Deputy Director  
Governor's Office of Planning and Research

October 15, 2013

# EGPR Requirements

- OPR is required by state law to prepare, maintain, and regularly review an Environmental Goals and Policy Report (EGPR).
- According to state statute, the EGPR must:
  - Take a long-term perspective (20 – 30 years).
  - Include an overview of approved state environmental goals and objectives
  - Be consistent with the state's planning priorities as defined by Assembly Bill (AB) 857 (Wiggins, 2002)

# Goals and Context of the EGPR

- Goals:
  - Provide a vision for the state's future
  - Outline cross-cutting goals for the next several decades
  - Link goals to metrics and indicators
- Context:
  - Population growth
  - Climate change

# California's Climate Future

- Meeting 2020 GHG target
- Committed to deep reductions by 2050 – 80% below 1990 levels
- Establish a mid-term emission reduction target
- Integrate climate readiness and adaptation into planning and investment

# EGPR: Vision and Cross-Cutting Goals

Reducing  
Emissions

Preparing for  
Impacts

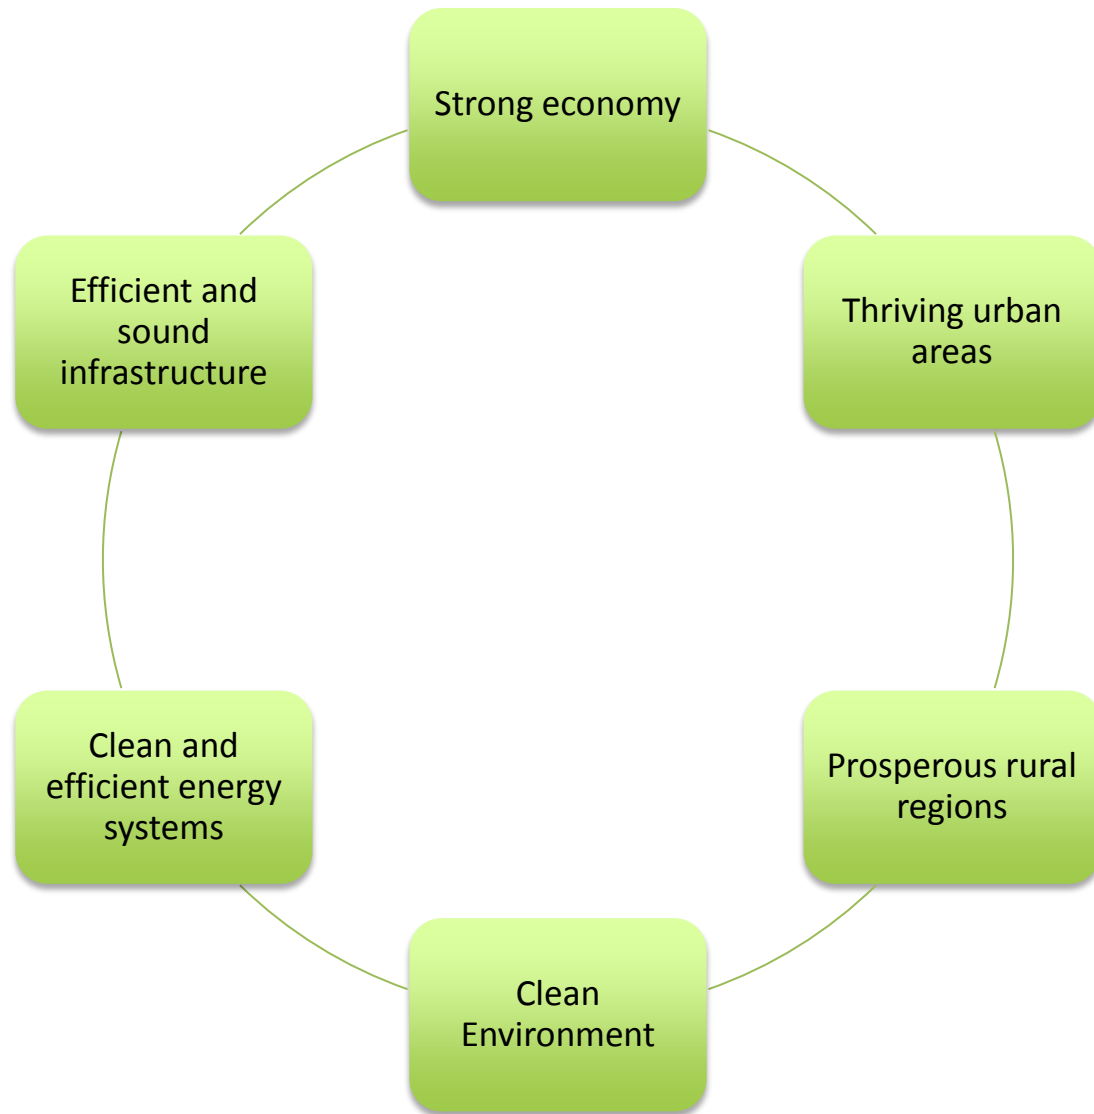

Research to  
inform policy

AB 32  
Scoping Plan

Safeguarding  
California

Climate  
Change  
Research Plan

# A vision for California's future

# Cross-Cutting Goals

Decarbonize the state's transportation and energy systems

Preserve and steward the state's lands and resources

Support healthy and sustainable communities

Build climate readiness and resilience into all policies

Improve cross-sector collaboration and data availability

# EGPR: Next steps

- Public workshops
- Regional, topical, and sectoral conversations about goals and indicators
- List-serve for project updates:
