

Polycyclic Aromatic Hydrocarbons (PAHs) at Fremont Elementary

*An hourly average concentration of PAHs was measured continuously. A 24-hour average was obtained for each day, which was then averaged over a month to calculate the monthly mean of the daily average PAHs.

Note: A=Annual; S=Summer (April through September);
W=Winter (October through March);
CA=Statewide; FA= Fresno Regional Average

Cancer risk of PAHs as an aggregate has not been determined.
