

Enclosure 3

November 3, 1997

Dear Sir or Madam:

We would like to invite you to participate in an upcoming public workshop to discuss proposals to provide alternative compliance options for antiperspirant and deodorant manufacturers. In keeping with the commitment we made to our Board at the June 26, 1997, hearing, staff will be discussing options including expanding the Alternative Control Plan (Title 17, California Code of Regulations, sections 94540-94555), as well as possible reactivity-based options. We are also open to consider alternatives proposals from the affected industry.

The workshop will be held at the time and place shown below:

California Air Resources Board
2020 L Street, Lower Level
Sacramento, California

Wednesday, November 19, 1997
8:30 a.m. - 11:00 a.m.

We welcome your participation and interest in this workshop. There is no need to notify us regarding your plans to attend the workshop. If you have any questions regarding the workshop, please contact Mr. Floyd Vergara, Technical Evaluation Section, at (916) 327-1503.

Sincerely,

Genevieve A. Shiroma, Chief
Air Quality Measures Branch
