May 10, 2002

Dear Survey Stakeholder Workgroup Member:

The California Air Resources Board (ARB) invites you to join us Thursday, May 30, 2002, via teleconference for a discussion of the upcoming 2001 Consumer & Commercial Products Survey (Survey). This will be the second meeting for the 2001 Survey Stakeholder Workgroup, a subcommittee of the Consumer Products Workgroup. This workgroup serves as a forum for on-going communication regarding the development of the Survey.

At the May 30th meeting, we will be presenting our responses to comments that resulted from our last workgroup meeting held on April 4, 2002. The floor will also be opened for comments on the draft survey. We plan to post the draft survey on the ARB website (<http://www.arb.ca.gov/consprod/regact/2001surv/2001surv.htm>) by May 20th. We will distribute hard copies of the draft survey upon request. Please contact Ms. Trish Villegas at (916) 323-9688, or by e-mail at tvillega@arb.ca.gov to request a hard copy of the draft survey.

Because of the teleconferencing difficulties experienced at our last meeting, we plan to hold this meeting in a smaller room. We anticipate the smaller room will better facilitate the teleconferencing for the meeting. Because of limited seating, we strongly encourage you to participate via teleconference. If you prefer to attend in person, please contact us as soon as possible to verify seating availability. To be added to the teleconference list or to verify seating availability, **contact Ms. Amy Livingston by May 24th at (916) 324-9549, or by e-mail at alivings@arb.ca.gov.**

We look forward to your participation in the survey process. If you have any questions about this letter, or the survey development process, please contact Mr. David Mallory, Manager, Measures Development Section at (916) 445-8316, or by e-mail at dmallory@arb.ca.gov.

Sincerely,

/S/

Janette Brooks, Chief
Air Quality Measures Branch

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
