Secretary for
Environmental Protection

Edmund G. Brown Jr.
Governor

April 2, 2013

Dear Sir or Madam:

The California Air Resources Board (ARB/Board) staff invites you to participate in a public workshop on Wednesday, April 24, 2013, to discuss proposed amendments to the Aerosol Coating Products Regulation and the Consumer Products Regulation. Staff is also proposing to rescind the Hairspray Credit Program Regulation.

You may attend the public workshop in person or participate *via* teleconference. The workshop will be held at the date and time shown below:

DATE:	Wednesday, April 24, 2013
TIME:	9:00 a.m. (PDT)
LOCATION:	Air Resources Board First Floor Conference Room Monitoring and Laboratory Division 1927 13th Street Sacramento, CA 95812

The following information is needed to participate *via* teleconference:

Call-in Time:	Between 8:45 a.m. and 9:00 a.m.
USA Toll Free Number:	888-391-6807
Passcode:	7909023

Related to the Aerosol Coatings Regulation, staff will discuss proposals for new or modified reactivity limits for aerosol coating products. Proposals to modify definitions and improve enforceability will also be discussed.

Staff will also present proposals to amend the Consumer Products Regulation. Specifically, staff will discuss proposed modifications to the existing regulatory provisions for Multi-purpose Solvent and Paint Thinner products. Staff will also discuss proposed modified limits for aerosol adhesives and new or modified definitions, including those for hair care products. A proposal to rescind the expired Hairspray Credit Program Regulation will also be discussed.

Public input from this workshop will be used to further develop proposals to be considered by the Board later this year.

Materials for this workshop, including a meeting agenda, will be posted to our program website prior to the workshop at the following address: http://www.arb.ca.gov/consprod/regact/2013/2013ra.htm. Notification will be sent *via* the consumer products email list server when the materials become available. General information about the Consumer Products Program is available at the following address: http://www.arb.ca.gov/consprod/consprod.htm.

ARB's Consumer Products Program is an important part of overall efforts to reduce the amount of smog-forming volatile organic compounds, toxic air contaminants and greenhouse gases that are emitted from the use of chemically formulated consumer products. ARB's Consumer Products Regulations have resulted in projected emission reductions of nearly 50 percent since 1990, but more needs to be done to meet health based air quality standards.

If you have any questions about this workshop or wish to receive email notification of updates on ARB's Consumer Products Program, please contact Ms. Irina Malkina at (916) 324-0342 or by email at imalkina@arb.ca.gov.

If you require a special accommodation or need this document in an alternate format (i.e. Braille, large print) or another language, please contact Ms. Malkina as soon as possible, but no later than 10 business days prior to the workshop. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

Sincerely,

Carla D. Takemoto, Chief
Area Source and Emission Inventory Programs Branch
Planning and Technical Support Division
