CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY AIR RESOURCES BOARD

THE CALIFORNIA CONSUMER PRODUCTS REGULATIONS

NOTE: This compilation includes the Air Resources Board's (ARB) five consumer products regulations as of November 2010. These regulations are: the Regulation for Reducing Volatile Organic Compound Emissions from Antiperspirants and Deodorants (**Antiperspirants and Deodorants Regulation**); the Regulation for Reducing Volatile Organic Compound Emissions from Consumer Products (**Consumer Products Regulation**); the Regulation for Reducing Volatile Organic Compound Emissions from Aerosol Coating Products (**Aerosol Coating Products Regulation**); the Alternative Control Plan Regulation for Consumer Products and Aerosol Coating Products (**Alternative Control Plan Regulation**); and, the Consumer Products' Hairspray Credit Program Regulation (**Hairspray Credit Program Regulation**).

The **Antiperspirants and Deodorants Regulation** sets volatile organic compound (VOC) limits for antiperspirant and deodorant products. This regulation was originally approved by the ARB on November 8, 1989, and became legally effective on February 27, 1991. Amendments to the regulation have also been adopted by the ARB. These amendments became legally effective on October 21, 1991; January 6, 1993; February 29, 1996; November 18, and 21, 1997; June 24, 1999; June 6, 2001, and July 20, 2005.

The **Consumer Products Regulation** was approved originally by the ARB, on October 11, 1990, and became legally effective on October 21, 1991. The regulation sets VOC limits for regulated categories of consumer products. Amendments to the regulation have been made and adopted by the ARB on January 1992 (effective 1993); September 1995 (effective 1996); November 1996 (effective 1997); July 1997 (effective 1998); November 1998 (effective 1999); October 1999 (effective 2000); May 2000 (effective 2001); June 2000 (effective 2001); June 2004 (effective 2005); November 2006 (effective 2007); June 2008 (effective 2009); and on September 2009 (effective October 20, 2010).

The **Aerosol Coating Products Regulation** sets VOC limits for 36 categories of aerosol coating products. This regulation was originally adopted by the ARB on March 23, 1995 and became legally effective on January 8, 1996. Amendments to the regulation were adopted by the ARB and became legally effective on June 24, 1999. On June 22, 2000, new amendments and the addition of the proposed Tables of Maximum Incremental Reactivity (MIR) Values were adopted, and became legally effective on July 18, 2001. Recent amendments made at a November 3, 2009 Hearing, became legally effective on October 2, 2010.

The **Alternative Control Plan Regulation** is a voluntary, market-based regulation which provides an alternative way to comply with the VOC limits in the Consumer Products and Aerosol Coating Products Regulations. This regulation was originally

approved by the ARB on September 22, 1994, and became legally effective on September 9, 1995. Amendments to the regulation were made and became legally effective on January 8, 1996.

The Consumer Products' **Hairspray Credit Program Regulation** was approved by the ARB on November 13, 1997, and became legally effective on August 24, 1998.
