

PRELIMINARY DRAFT - February 20, 1997

FLOOR WAX STRIPPER

Preliminary Draft VOC Limit: 1% by weight

I. Product Definition:

"Floor Wax Stripper" means a product intended to remove natural or synthetic floor waxes through breakdown of the wax polymers or by dissolving or emulsifying the wax. This category does not include products designed to remove floor wax solely through abrasion.

II. Typical Formulations of Complying Products (Category 520):

Disclaimer: The following sample formulations for complying products are not intended to be complete formulations. Air Resources Board staff realize that consumer product formulations are often complex mixtures that require extensive testing to optimize. The sample formulations are intended to illustrate the approximate proportions of compounds that may be used to formulate a consumer product that meets the draft volatile organic compound limits for the Mid-term Measures.

1. Formulation as diluted*:

Wt. %	Ingredient
1 - 2	Inorganic (base)
1 - 2	LVP VOC's (surfactant/emulsifiers/solvents)
0 - 1	VOC's
95 - 98	Water

* As seen in our 1995 Mid-term Measures Survey
