

SUPPLEMENTAL DEFINITIONS

Aerosol Product means a product packaged in a pressurized, disposable, hand-held can equipped with a valve that dispenses product ingredients by means of a propellant or mechanically induced force.

Agricultural Use means the use of any pesticide or method or device for the control of pests in connection with the commercial production, storage or processing of any animal or plant crop. *Agricultural use* does not include the sale or use of pesticides in properly labeled packages or containers which are intended for: (A) home use, (B) use in structural pest control, or (C) industrial or institutional use.

Air Freshener means any consumer product including, but not limited to, sprays, wicks, powders, and crystals, designed for the purpose of masking odors, or freshening, cleaning, scenting, or deodorizing the air. *Air freshener* includes dual purpose air freshener/disinfectant products. *Air freshener* does not include products that are used on the human body, or products that function primarily as cleaning products as indicated on a product label or advertisement.

Antiperspirant means any product including, but not limited to, aerosols, roll-ons, sticks, pumps, pads, creams, and squeeze-bottles, that is intended by the manufacturer to be used to reduce perspiration in the human axilla by at least 20 percent in at least 50 percent of a target population.

ASTM means the American Society for Testing and Materials.

Bathroom and Tile Cleaner means a product designed to clean tile or surfaces in bathrooms. *Bathroom and tile cleaner* does not include products specifically designed to clean toilet bowls or toilet tanks.

Branch means a division or a separately located unit of an organization.

Colorant means any pigment or coloring material used in a consumer product for an aesthetic effect, or to dramatize an ingredient.

Concentrate means a liquid that is designed to be diluted with water or some other liquid by the end user.

Consumer Product means a chemically formulated product used by household and institutional consumers including, but not limited to detergents; cleaning compounds; polishes; floor finishes; cosmetics; personal care products; home, lawn, and garden products;

SUPPLEMENTAL DEFINITIONS

disinfectants; sanitizers; and automotive specialty products but do not include paint; furniture coatings, or architectural coatings.

Contract Employee means a person hired by a company to sell that company's goods or products for an agreed upon commission or fee.

Custom Contract Packager means a company that manufactures products based on the specifications of another company and places the other company's name on the product label.

Deodorant means any product including, but not limited to, aerosols, roll-ons, sticks, pumps, pads, creams, and squeeze-bottles, that is intended by the manufacturer to be used to minimize odor in the human axilla by retarding the growth of bacteria which cause the decomposition of perspiration.

Diluent means the material used to dilute a *concentrated* substance.

Distributor means a company that sells products to retail businesses or to institutional or industrial customers.

Employee means a person hired by another, or by a business firm, to work for wages or salary.

Engine Degreaser means a cleaning product designed to remove grease, grime, oil and other contaminants from the external surfaces of engines and other mechanical parts.

Exempt Compound means any of the following organic compounds: carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, ammonium carbonate, and the following: (1) methane, methylene chloride (dichloromethane), 1,1,1-trichloroethane (methyl chloroform), trichlorofluoromethane (CFC-113), 1,2-trichloro-1,2,2-trifluoroethane (CFC-114), chloropentafluoroethane (CFC-115), chlorodifluoromethane (HCFC-22), 1,1,1-trifluoro-2,2-dichloroethane (HCFC-123), 1,1-dichloro-1-fluoroethane (HCFC-141b), 1-chloro-1,1-difluoroethane (HCFC-142b), 2-chloro-1,1,1,2-tetrafluoroethane (HCFC-124), trifluoromethane (HFC-23), 1,1,2,2-tetrafluoroethane (HFC-134), 1,1,1,2-tetrafluoroethane (HFC-134a), pentafluoroethane (HFC-125), 1,1,1-trifluoroethane (HFC-143a), 1,1-difluoroethane (HFC-152a), cyclic, branched, or linear completely methylated siloxanes, the following classes of perfluorocarbons: (A) cyclic, branched, or linear, completely fluorinated alkanes; (B) cyclic, branched, or linear, completely fluorinated ethers with no unsaturations; (C) cyclic, branched, or linear, completely fluorinated tertiary amines with no unsaturations; and (D) sulfur-containing perfluorocarbons with no unsaturations and with the sulfur bonds to carbon and fluorine; and (2) the following low-reactive organic compounds

SUPPLEMENTAL DEFINITIONS

which have been exempted by the U.S. EPA: acetone, ethane, parachlorobenzotrifluoride (1-chloro-4-trifluoromethyl benzene).

Fragrance means a substance or complex mixture of aroma chemicals, natural essential oils, and other functional components with a combined vapor pressure not in excess of 2 mm Hg at 20 degrees Celsius, the sole purpose of which is to impart an odor or scent, or to counteract a malodor.

Furniture Coating means a paint or other permanent finish such as stains, sanding sealers, varnishes, or lacquers, designed for application to room furnishing including, but not limited to, cabinets (kitchen, bath and vanity), tables, chairs, beds, and sofas.

Gel means a colloid in which the disperse phase has combined with the continuous phase to produce a semisolid material, such as jelly.

General Purpose Cleaner means a product designed for general all-purpose cleaning, in contrast to cleaning products designed to clean specific substrates in certain situations. *General purpose cleaner* includes products designed for general floor cleaning, kitchen or counter top cleaning, and cleaners designed to be used on a variety of hard surfaces.

Glass Cleaner means a cleaning product designed primarily for cleaning surfaces made of glass. *Glass cleaner* does not include products designed solely for the purpose of cleaning optical materials used in eyeglasses, photographic equipment, scientific equipment and photocopying machines.

Gross Annual Receipt means the overall total income of a company before expenses are deducted.

Hairspray means a consumer product designed primarily for the purpose of dispensing droplets of a resin on and into a hair coiffure which will impart sufficient rigidity to the coiffure to establish or retain the style for a period of time.

Hair Mousse means a hairstyling foam designed to facilitate styling of a coiffure and provide limited holding power.

Hair Styling Gel means a high viscosity, often gelatinous, product that contains a resin and is designed for the application to hair to aid in styling and sculpting of the hair coiffure.

Hand, Face or Body Cleaner or Soap means the following subcategories: (a) "Antimicrobial Hand or Body Cleaner or Soap," (b) "Facial Cleaner or Soap," (c) "General-use Hand or Body Cleaner or Soap," and (d) "Heavy-duty Hand Cleaner or Soap."

SUPPLEMENTAL DEFINITIONS

Headquarters means the main office or center of operations and control in any organization.

Household Product means any consumer product that is primarily designed to be used in or around living quarters or residences that are occupied or intended for occupation by individuals.

Independently Owned means controlled by one self. Not dependent on another for financial support.

Industrial Product means a product designed and labeled exclusively for use in manufacturing processes whereby the product is incorporated into or used exclusively in the manufacture or construction of the goods or commodities (e.g., mold release used in plastic forms).

Inorganic Compound means a compound lacking carbon atoms.

Insecticide means a pesticide product that is designed for use against insects or other arthropods, but excluding products that are: (A) for agricultural use, or (B) for a use which requires a structural pest control license under Chapter 14 (commencing with Section 8500) of the Business and Professions Code, or (C) restricted materials that require a permit for use and possession.

Institutional Product also known as "Industrial and Institutional (I&I)" product means a consumer product that is designed for use primarily in the maintenance or operation of an establishment that: (A) manufactures, transports, or sells goods or commodities, or provides services for profit; or (B) is engaged in the nonprofit promotion of a particular public, educational, or charitable cause. Establishments include, but are not limited to, government agencies, factories, schools, hospitals, sanitariums, prisons, restaurants, hotels, stores, automobile service and parts centers, health clubs, theaters, or transportation companies. Institutional product does not include household or industrial products.

Label means any written, printed, or graphic matter affixed to, applied to, attached to, blown into, formed, molded into, embossed on, or appearing upon any consumer product or consumer product package, for purposes of branding, identifying, or giving information with respect to the product or to the contents of the package.

Laundry Prewash means a product that is designed for application to a fabric prior to laundering and that supplements and contributes to the effectiveness of laundry detergents and/or provides specialized performance.

SUPPLEMENTAL DEFINITIONS

Liquid means a substance capable of flowing or of being poured. *Liquid* does not include powders or other materials that are composed entirely of solid particles.

Low Vapor Pressure (LVP) Compound as defined in the "Regulation for Reducing Volatile Organic Compound Emissions from Consumer Products" means any compound which contains at least one carbon atom and has either of the following: (1) a vapor pressure less than 0.1 mm Hg at 20 °C; or (2) more than 12 carbon atoms, if the vapor pressure is unknown.

Lubricant means a product that is designed to reduce friction, heat, noise or wear between moving parts, or to loosen rusted or immovable parts or mechanisms. Lubricants may also be designed and labeled for secondary functions such as water displacement and corrosion prevention. *Lubricant* includes the different types of "Multi-purpose Lubricants," as well as, "Anti-seize Compound," "Penetrant," "Cutting Oil/Fluid," "Chain, Cable or Open Gear Lubricant," "Hydraulic Lubricant/Fluid," and "Specialty Lubricant." *Lubricant* does not include automotive power steering fluids; lubricants for use inside power generating motors, engines, and turbines, and their associated power-transfer gearboxes; two cycle oils or other products designed primarily to be added to fuels; lubricants for use primarily on the human body or animals; and lubricants designed and labeled exclusively for industrial uses.

Manufacturer/Marketer means any person who imports, manufactures, assembles, produces, packages, repackages, or relabels a consumer product.

Nationally means throughout the United States.

Paint means any pigmented liquid, liquefiable, or mastic composition designed for application to a substrate in a thin layer which is converted to an opaque solid film after application and is used for protection, decoration or identification, or to serve some functional purpose such as the filling or concealing of surface irregularities or the modification of light and heat radiation characteristics.

Parent Company means the company or corporation that owns and controls other companies.

Personal Fragrance Product means any product which is applied to the human body or clothing for the primary purpose of adding a scent or masking a malodor, including cologne, perfume, aftershave, and toilet water. *Personal fragrance product* does not include: (A) products exclusively for human axillae; (B) medicated products designed primarily to alleviate fungal or bacterial growth on feet or other areas of the body; (C) mouthwashes, breath fresheners and deodorizers; (D) lotions, moisturizers, powders or other skin care products used primarily to alleviate skin conditions such as dryness and irritations; (E) products designed exclusively for use on human genitalia; (F) soaps, shampoos, and products primarily used to clean the human body and (G) fragrance products designed to be used exclusively on non-human animals.

SUPPLEMENTAL DEFINITIONS

Pesticide means and includes any substance or mixture of substances labeled, designed, or intended for use in preventing, destroying, repelling or mitigating any pest, or any substance or mixture of substances labeled, designed or intended for use as a defoliant, desiccant, or plant regulator. A *pesticide* does not include any substance, mixture of substances, or device which the United States Environmental Protection Agency does not consider to be a *pesticide*.

Private Label Contract Packager means a company that manufactures products for sale under another company's name.

Propellant means a liquefied or compressed gas that is used in whole or in part, such as a cosolvent, to expel a liquid or any other material from the same self-pressurized container or from a separate container.

Pump Spray Dispenser means a nonpressurized packaging system in which the product ingredients are expelled only while a pumping action is applied to a button, trigger or other actuator by the hand of the operator.

Principal Display Panel or Panels means that part, or those parts of a *label* that are so designed as to most likely be displayed, presented, shown or examined under normal and customary conditions of display or purchase. Whenever a *principal display panel* appears more than once, all requirements pertaining to the *principal display panel* shall pertain to all such *principal display panels*.

Regionally means of some particular area in the nation (e.g., the West Coast which includes Washington, Oregon, and California).

Responsible Party means the company, firm or establishment which is listed on the product's *label*. If the *label* lists two companies, firms or establishments, the *responsible party* is the party which the product was "manufactured for" or "distributed by," as noted on the *label*.

Retailer means any person who sells, supplies, or offers consumer products for sale directly to individual consumers or households. *Retailer* also includes retail outlets and companies who sell directly to the consumer through sales representatives or through mail-order.

Semisolid Product means a product that, at room temperature, will not pour, but will spread or deform easily, including gels, pastes, and greases.

Solid means a substance with definite shape and volume that will not spread or deform easily. This includes powders or other materials that are composed entirely of solid particles.

Spray Gel means a *hair styling gel* that is dispensed by a *pump spray dispenser*.

SUPPLEMENTAL DEFINITIONS

Terrestrial Herbicide, Defoliant, and Desiccant means any product designed to destroy plant material, render seeds incapable of germination, or cause leaves or foliage to drop. *Terrestrial herbicide, defoliant, and desiccant* includes desiccants which dry plant tissue, moss killers, root killers, and fertilizer products containing herbicides. It does not include plant growth regulator products designed solely for use in agriculture, or products designed solely for use by professional pest control operators.

Volatile Organic Compound (VOC) means any compound containing at least one atom of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, and excluding the following: (1) methane, methylene chloride (dichloromethane), 1,1,1-trichloroethane (methyl chloroform), trichlorofluoromethane (CFC-113), 1,2-trichloro-1,2,2-trifluoroethane (CFC-114), chloropentafluoroethane (CFC-115), chlorodifluoromethane (HCFC-22), 1,1,1-trifluoro-2,2-dichloroethane (HCFC-123), 1,1-dichloro-1-fluoroethane (HCFC-141b), 1-chloro-1,1-difluoroethane (HCFC-142b), 2-chloro-1,1,1,2-tetrafluoroethane (HCFC-124), trifluoromethane (HFC-23), 1,1,2,2-tetrafluoroethane (HFC-134), 1,1,1,2-tetrafluoroethane (HFC-134a), pentafluoroethane (HFC-125), 1,1,1-trifluoroethane (HFC-143a), 1,1-difluoroethane (HFC-152a), cyclic, branched, or linear completely methylated siloxanes, the following classes of perfluorocarbons: (A) cyclic, branched, or linear, completely fluorinated alkanes; (B) cyclic, branched, or linear, completely fluorinated ethers with no unsaturations; (C) cyclic, branched, or linear, completely fluorinated tertiary amines with no unsaturations; and (D) sulfur-containing perfluorocarbons with no unsaturations and with the sulfur bonds to carbon and fluorine, and (2) the following low-reactive organic compounds which have been exempted by the U.S. EPA: acetone, ethane, parachlorobenzotrifluoride (1-chloro-4-trifluoromethyl benzene).

Volatile Methyl Siloxanes means cyclic, branched, or linear completely methylated siloxanes.

Wax means a material or synthetic thermoplastic substance generally of high molecular weight hydrocarbons or high molecular weight esters of fatty acids or alcohols, except glycerol and high polymers (plastics). *Wax* includes, but is not limited to, substances derived from the secretions of plants and animals such as carnauba wax and beeswax, substances of a mineral origin such as ozocerite and paraffin, and synthetic polymers such as polyethylene.
