Dear Sir or Madam:

The California Air Resources Board (ARB) staff invites you to participate in the second public workshop regarding the Technology Review for Compliance with the Transport Refrigeration Unit (TRU) Airborne Toxic Control Measure (ATCM). The first TRU ATCM Technology Review Workshop was conducted on June 14, 2007. During this second workshop, ARB staff will present additional information regarding emission control technology as well as provide an update on the implementation of the TRU ATCM.

Workshop Logistics Information

The workshop will be held at the following location, date and time:

DATE: Wednesday, September 12, 2007
TIME: 10:00 a.m. to 12:00 Noon (Pacific Time)
LOCATION: Byron Sher Auditorium (2nd floor)
ADDRESS: CalEPA Headquarters Building
1001 I Street
Sacramento, California 95814

For directions, transportation options, and parking information for the public workshop, please visit the following webpage: <http://www.calepa.ca.gov/EPABldg/location.htm>.

The workshop will also be available through webcast and teleconference. The webcast connection is at: <http://www.calepa.ca.gov/broadcast>. During the webcast, we will accept questions and comments sent via email to auditorium@calepa.ca.gov. Interested parties in North America (U.S., Canada, and most of Mexico) may call in toll free to 1-888-793-1765. International callers outside of North America may email Rod Hill (rhill@arb.ca.gov) for UIFN country codes and carriers or just call into the meeting using the toll-number 1-210-234-0002. The passcode for conference calls is 69387.

The agenda and presentation, as well as any additional materials, will be available at the workshop and a few days prior to the workshop on our website at <http://www.arb.ca.gov/diesel/tru.htm>.

If you have a disability-related accommodation need, please go to <http://www.arb.ca.gov/html/ada/ada.htm> for assistance or contact the ADA Coordinator

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

at (916) 323-4916. If you are a person who needs assistance in a language other than English, please go to <http://www.arb.ca.gov/as/eeo/languageaccess.htm> or contact the Bilingual Coordinator at (916) 324-5049 as soon as possible.

Background

On February 26, 2004, the California Air Resources Board (ARB) adopted the Transport Refrigeration Unit (TRU) Airborne Toxic Control Measure (ATCM) and directed staff to closely monitor the development of emissions control technology as it applies to compliance with in-use performance standards set forth in the TRU ATCM. The Board further directed staff to report on the feasibility of complying with the standards in the time specified in the regulation. The rulemaking became effective December 10, 2004, and was codified under title 13, California Code of Regulations (CCR), section 2477. On March 28, 2005, ARB requested the U.S. Environmental Protection Agency (U.S. EPA) to grant a waiver of preemption under the federal Clean Air Act. Pending U.S. EPA's decision, ARB will continue to implement the TRU ATCM in accordance with state law.

Further Information

We welcome your participation in these efforts. If you have general questions regarding this public workshop, please contact Mr. Rod Hill at (916) 327-5636 or via email at rhill@arb.ca.gov, or Mr. Richard Boyd, Manager, Process Evaluation Section, at (916) 322-8285 or via email at rboyd@arb.ca.gov.

Sincerely,
/s

Daniel E. Donohoue, Chief
Emissions Assessment Branch
Stationary Source Division
