Vehicles that have the Cleaire devices listed above which were installed in a verified configuration will continue to meet applicable in-use fleet rule requirements. ARB is contacting Cleaire distributors, installers, and other authorized representatives regarding continued product warranty and replacement part support. The installation warranty protections are unaffected by the current situation for products installed by a third party (i.e., an independent installer). As always, please contact your installer with any questions, warranty claims, or service needs for your Cleaire product.
