

Approved System and Engine Label for the Boshart Econix DPF-A system

Relating to Executive Order Series DE-12-004

Effective Date: September 10, 2012

Boshart Engineering, Inc. 1175 N Del Rio Place, Ontario, CA 91764 TEL: 877.4.ECONIX WWW.ECONIXUSA.COM
Diesel Emission Control Strategy Family Name CA/BSH/2012/PM3+/N00/DPF01
Manufacturer: Boshart Engineering, Inc. Model: Econix DPF-A Product Serial Number: 000001

Note: the system label and engine labels are identical. The above serial number is for illustrative purposes. The actual serial number will be unique to each system.

Notes:

- The labels that are attached to the Econix DPF-A center body and engine are identical.
- Product Serial Number – Is the diesel particulate filter part number with a format of BE#YMDD000 where:
 - # – Is representative of filter size: 1 for category I filters and 2 for category II filters
 - Y – Is representative of the year of manufacture. 0 through 9 will represent 2010 through 2019. Systems manufactured after 2019 will be represented alphabetically, i.e. A – 2020, B – 2021, C – 2022, etc.
 - M – Is representative of the month of manufacture. 0 through 9 will represent January through September. Systems manufactured after September will be represented alphabetically, i.e. A – October, B – November, C –December.
 - DD – Will represent the date of manufacture.
 - 000 – Will represent a unique serial number that will be in numerical production order.
- Replacement system and engine labels will have “Replacement Label” printed to the right of the product serial number.
