

**Device and Engine Label for the
ESW Technologies, ThermaCat™e System
Relating to Executive Order Series DE-12-005**

Figure 1. ThermaCat™e System and Engine Label

The above label is an example. Actual labels will have unique serial numbers where XXXXX will represent the incremental production number of each system. Below the serial number is the system identification number. Actual labels will have system identification numbers based on the diesel particulate filter (DPF) size where XXXXX2 will be one of the approved systems listed in Table 1. The 2 at the end of the System Number specifically designates the device for the ThermaCat™e system only. Mfg is the system manufacture date where MMM will be a three-letter representation of the month of manufacture: Jan – January, Feb – February, Mar – March, Apr – April, May – May, Jun – June, Jul – July, Aug – August, Sep – September, Oct – October, Nov – November, and Dec – December; YYYY will represent the four-digit year of manufacture. “Replacement Label” will only be present in labels issued as replacements to the original label.

Table 1. ThermaCat™e System Number Identification

DPF size (inches)	System Number		DPF size (inches)	System Number	
	Flat Flange	Inter-locking Flange		Flat Flange	Inter-locking Flange
9x10	243102	143102	11.25x12	245122	145122
9x12	243112	143122	11.25x14	245142	145142
10.5x10	244102	144102	12x10	246102	146102
10.5x12	244122	144112	12x12	246122	146122
11.25x10	245102	145102	12x14	246142	146142
			15x10	247102	147102
