

**IMPCO TECHNOLOGIES CANADA, INCORPORATED (IMPCO)
CLEARSKY DIESEL PARTICULATE FILTER (DPF)
COMPONENT SWAPPING AND RE-DESIGNATION POLICY**

Relating to Conditional Verification Letter 14-944-1938

Effective Date: April 29, 2014

Component Swapping means the movement of designated parts between different vehicles/applications utilizing the same diesel emission control strategy (DECS) as defined in the *Verification Procedure, Warranty, and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines* (the verification procedure or procedure) in Section 2701, Title 13, *California Code of Regulations*.

Re-designation means the removal, within the same common ownership fleet, of a complete used verified DECS from an appropriate engine in a vehicle/application and installation to another appropriate engine in a vehicle/application that meets the terms and conditions of the DECS Executive Order as defined in the *Procedure*.

No component swapping or re-designation is allowed for the IMPCO Technologies Canada, Incorporated (IMPCO) CLEARSKY DPF.

If component swapping or re-designation occurs, IMPCO may deny your warranty claim. Selling a used verified or used conditionally verified DECS is not permitted.
