

Let's Celebrate Earth on April 22, 2007

On April 22, 1970, millions of Americans of all ages and from all walks of life participated in the first Earth Day celebrations from coast to coast. From then on, Earth Day celebrates gains we have made and creates new visions to accelerate environmental progress. Earth Day is a time to unite around new actions. Earth Day and every day is a time to act to protect our planet.
