RULE 264 - SEPARATION OF EMISSIONS

(Adopted January 4, 1972; Recodified August 6, 1985; Recodified August 22, 2002)

- 1 SEPARATION OF EMISSIONS:** If air contaminants from a single source operation are emitted through two (2) or more emission points, the total emitted quantity of any air contaminant limited by these Rules and Regulations shall not exceed the quantity which would be the allowable emission through a single emission point, and the total emitted quantity of any such air contaminant shall be taken as the product of the highest concentration measured in any of the emission points and the combined exhaust gas volume from all emission points, unless the person responsible for the source operation establishes, to the satisfaction of the Air Pollution Control Officer, the correct total emitted quantity.
