100 GENERAL

101 PURPOSE: To establish fees to be charged to (1) owners/operators of a stationary source required to obtain an authority to construct or a permit to operate by Rule 201, (2) owners/operators of a stationary source required to obtain a Title V operating permit by Rule 207, (3) owners/operators of a stationary source requesting to use the alternative compliance option specified in Rule 107, ALTERNATIVE COMPLIANCE, and (4) applicants requesting to deposit or withdraw emission reduction credits from the District credit bank.

102 PUBLIC AGENCIES NOT EXEMPT: Federal, state or local government agencies or public agencies shall pay fees to the extent allowed under Chapter 2, Division 7, Title 1 of the Government Code (commencing with Section 6100) and Section 42311 of Division 26 of the California Health and Safety Code.

200 DEFINITIONS: Unless otherwise defined below, the terms in this rule are defined in Rule 207, TITLE V – FEDERAL OPERATING PERMIT PROGRAM.

201 CANCELED APPLICATION: Any application which has been withdrawn by the applicant.

202 CHANGE OF NAME: An administrative name change on the permit(s) where no change of ownership and/or location has occurred.

203 CHANGE OF LOCATION: Any transfer of an existing permitted source from one location to another not on the same property or facility.

204 AUTHORITY TO CONSTRUCT FEE: A fee for each authority to construct based on the type and size of the source.

205 INITIAL PERMIT FEE: A fee for each new permit based on the type and size of the source.

206 INITIAL TITLE V OPERATING PERMIT: A new Title V application that is submitted pursuant to Rule 207, TITLE V – FEDERAL OPERATING PERMIT PROGRAM.

207 MODIFICATION: Any physical change in an existing facility or change in the method of operation which results or may result in either an increase or decrease in emission of any air pollutant subject to district control, or the emission of any such air pollutant not previously emitted. The following shall not be regarded as physical changes or changes in the method of operation:

207.1 Routine maintenance, repair or replacement with identical or equivalent equipment;

207.2 Increased production rate or increased hours of operation where there is no increase in fixed capital cost, unless such production and hours are limited by permit conditions.

208 PERMIT RENEWAL FEE: A fee required for the annual renewal of a permit to operate.

209 PERMIT TO OPERATE: A written permit from the Air Pollution Control Officer issued in accordance with Rule 201 – GENERAL PERMIT REQUIREMENTS.

210 PERMIT TO OPERATE–MODIFIED: A permit to operate that has been modified and that will require the owner or operator to submit a Title V application for a significant or minor Title V permit modification in accordance to Rule 207, TITLE V – FEDERAL OPERATING PERMIT PROGRAM.

211 SOURCE: Any operation that produces and/or emits air pollutants.

212 TITLE V APPLICATION: An application submitted pursuant to Rule 207, TITLE V – FEDERAL OPERATING PERMIT PROGRAM.
213 **TITLE V OPERATING PERMIT RENEWAL:** A Title V application submitted to renew the Title V operating permit pursuant to Rule 207, Title V – FEDERAL OPERATING PERMIT PROGRAM (typically every 5 years).

300 **STANDARDS**

301 **AUTHORITY TO CONSTRUCT FEE:** Every applicant for an authority to construct shall pay one half of the estimated initial permit fee in Section 308 of this rule upon filing the application.

301.1 Within 30 days of receipt of an application, the Air Pollution Control Officer may notify the applicant that, due to the complexity of the application, the permit processing fees shall be based on the actual hours spent by the District staff in evaluating the application and verifying equipment compliance. This fee shall be assessed in accordance with the hourly rate established in Section 308.11. The applicant shall deposit with the District the amount estimated by the Air Pollution Control Officer to be charged for processing the authority to construct, which said sum is not to exceed the actual cost of such work. This estimate may include costs associated with planning meetings and/or design evaluations prior to actual submission of a complete application. The deposit shall be required for the following:

a. Equipment associated with cogeneration projects.
b. Equipment associated with resource recovery projects.
c. Equipment associated with landfill projects.
d. Equipment associated with power plants.
e. Equipment involving the disposal by incineration, or other thermal process, of hazardous, toxic or infectious waste.
f. Equipment involving the emission of hazardous or toxic materials.
g. Equipment which is expected to emit 25 tons, or more, per year of any pollutant, or which is expected to increase the emissions of any pollutant from an existing facility by 25 tons, or more, per year.
h. Any project for which the evaluation is expected to take 10 hours or more.

The applicant may request a conference with the Air Pollution Control Officer to review the cost estimate. The applicant may propose to provide additional information with the application that would reduce the time spent by the Air Pollution Control Officer in reviewing the application. The Air Pollution Control Officer's cost estimate shall be reduced accordingly.

302 **INITIAL PERMIT FEE:** Every applicant for a permit to operate shall pay the initial permit fee in Section 308 of this rule for the issuance of a permit to operate. An applicant for an authority to construct who has paid a portion of the initial permit fee shall be required to pay only the remaining portion for the issuance of a permit to operate.

302.1 When an application for a permit to operate is submitted for equipment that has been operated without a required permit from the District, the applicant shall pay renewal back fees for each year of unpermitted operation, to a maximum of 3 years, in addition to the initial permit fee.

303 **PERMIT RENEWAL FEE:** Every holder of a permit to operate shall pay a fee for the annual permit renewal. The permit renewal fee shall be the total of:

303.1 The Permit Renewal Fee indicated by the appropriate schedule of Section 308 of this rule, and

303.2 The calculated fee for the total tons of each pollutant emitted during the prior calendar year as indicated by the following table. The minimum fee shall be that for one ton per year. The total tons of each pollutant shall be the actual emission rounded up to the next whole ton.

303.3 The holder of permits with more than one anniversary date may request a common renewal date and that fees be prorated as necessary.

304 CANCELLATION OR WITHDRAWAL: If the application for an authority to construct is canceled or denied, the fees paid shall not be refunded nor applied to any other application. Fees paid under Section 301.1 that are not used prior to an application being withdrawn by the applicant shall be refunded upon request.

305 REVOCATION: If a permit to operate is revoked, the permit renewal fee applicable to that portion of the year during which the permit is invalid shall not be refunded nor applied to any other application.

306 ALTERATIONS, ADDITIONS, REVISIONS OR CHANGE IN CONDITIONS:

306.1 When an application is filed for a permit involving alterations or additions resulting in a change to any existing equipment for which a permit to operate was granted for such equipment and has not been canceled under Section 401 of this rule, the applicant shall pay a permit fee based on the incremental increase in rating, capacity or increase in the number of nozzles resulting from such change in accordance with the fee schedule in Section 308 of this rule.

306.2 When an application is filed for a revision of conditions on a permit to operate or any alteration or addition, but no increase or change is made in rating, capacity or number of nozzles, and no increases in emissions or health risk, the applicant shall pay a permit fee of $959 or the initial permit fee in Section 308, whichever is lower.

307 CHANGE OF LOCATION, OWNERSHIP, OR NAME:

307.1 When an application is filed for a permit because the equipment has been moved to a new location, or ownership has been transferred from one person to another and a permit to operate granted for such equipment has not been canceled under Section 401 of this rule, the applicant shall pay a permit fee equivalent to the permit renewal fee in Section 303 of this rule.

307.2 When an application is filed to request a change of name on a permit(s) and a change of ownership has not occurred under Section 307.1 of this rule, the applicant shall pay $90 for the change of name on the first permit and $38 for each additional permit.

308 SCHEDULES FOR INITIAL PERMIT FEE AND PERMIT RENEWAL FEE:

308.1 It is determined that the cost of issuing permits, and of inspections pertaining to such issuance exceeds the fees specified in this rule. If more than one fee schedule is applicable to a permit, the governing schedule shall be that which results in the higher fee. When a group of machines are included in a single permit, the permit fee shall be based on the total rating of the group.

308.2 SCHEDULE 1, ELECTRIC MOTOR HORSEPOWER SCHEDULE: Any equipment using motors as a power source shall be assessed a permit fee based on the cumulative total rated horsepower of all motors included, in accordance with the following schedule:

The permit renewal fee for a gasoline dispensing facility granted an exemption for nozzle vapor recovery by Rule 449 shall be $463.

b. In addition to the permit renewal fee in Section 308.7(a), the owner or operator of a facility with gasoline storage and dispensing equipment subject to the Rule 448, GASOLINE TRANSFER INTO STATIONARY STORAGE CONTAINERS, or Rule 449, TRANSFER OF GASOLINE INTO VEHICLE FUEL TANKS, shall pay an annual source test fee. 308.9 SCHEDULE 8, ELECTRICAL GENERATING EQUIPMENT GREATER THAN 5MW:
The Initial Permit fee or Permit Renewal fee for an electrical generating stationary source producing greater than 5MW shall be based on the actual hours spent by the District staff in evaluating the application and processing the permit. The fee shall be assessed in accordance with the hourly rate established in Section 308.12.

308.10 SCHEDULE 9, MISCELLANEOUS EQUIPMENT: Any equipment which is not included in the preceding schedules shall be assessed an initial permit fee of $1,919 and a permit renewal fee of $959. Notwithstanding Section 308.1, standby and emergency equipment may be included in this schedule.

308.11 SCHEDULE 10, TIME AND MATERIALS LABOR RATE RESTRICTED BY HEALTH AND SAFETY CODE SECTION 41512.7(b): This Schedule shall only be applicable to fees required by Section 301.1. The rate for time and materials shall be $212 per hour.

308.12 SCHEDULE 11, TIME AND MATERIALS LABOR RATE: This Schedule shall only be applicable to fees required by Sections 308.9, 311, 314, 315, and 317. The rate for time and materials shall be $212 per hour.

309 PERMIT TO OPERATE GRANTED BY HEARING BOARD: Permits granted by the Hearing Board after denial by the Air Pollution Control Officer are subject to this Rule.

310 DUPLICATE PERMITS: A request for a duplicate permit shall be made in writing by the permittee. A fee of $29 shall be charged for issuing a duplicate permit.
311  **SOURCE TEST OBSERVATION AND REPORT EVALUATION:** Except as provided in Section 308.7(b), a fee of $1,919 will be charged against the owner or operator of a source whenever the Air Pollution Control Officer finds that a source test is required and must be observed and the report evaluated by district personnel to determine the actual emissions from the source for the purpose of issuing or renewing a permit to operate. When multiple source tests are performed and the results submitted in one consolidated report, the source test fee of $1,919 shall apply to the first 10 hours of District work. Each additional hour or portion thereof required for reviewing the source test shall be charged the time and materials labor rate established in Section 308.12.

312  **ANALYSIS FEES:** Whenever the Air Pollution Control Officer finds that an analysis of the emissions from any source is necessary to determine the extent and amount of pollutants being discharged into the atmosphere which cannot be determined by visual observation, he may collect and analyze emissions samples. The cost of collecting samples, making the analysis and preparing the necessary reports shall be charged against the owner or operator of said source. The Air Pollution Control Officer shall provide the applicant with an estimate of the actual cost of such work. The applicant may request a conference with the Air Pollution Control Officer to review the cost estimate. The applicant may provide additional information that would reduce the time spent by the Air Pollution Control Officer in performing an analysis of the emissions from the source. The Air Pollution Control Officer's cost estimate shall be reduced accordingly.

313  **TITLE V OPERATING PERMIT FEES:**

313.1  **Permit Evaluation and Processing Fees**

   a. When a Title V application is submitted to the Air Pollution Control Officer pursuant to Rule 207, TITLE V – FEDERAL OPERATING PERMIT PROGRAM, the applicant shall pay a filing fee of $1,465 per Title V application. In addition, the applicant shall pay the respective fee shown below for the following type of Title V application:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

   b. Within 30 days of receipt of a Title V application, the Air Pollution Control Officer may notify the applicant that, due to the complexity of the Title V application, the Title V application fees shall be based on the actual hours spent by the District staff in evaluating the application and processing the permit. This fee shall be assessed in accordance with the hourly rate established in Section 308.12. The applicant shall deposit with the District the amount estimated by the Air Pollution Control Officer to be charged for processing the Title V permit application. The applicant may request a conference with the Air Pollution Control Officer to review the cost estimate. The applicant may propose to provide additional information with the application that would reduce the time spent by the Air Pollution Control Officer in reviewing the application. The Air Pollution Control Officer’s cost estimate shall be reduced accordingly.

313.2  **Annual Title V Fee:** In addition to the fees required by Sections 308 and 313.1, an owner/operator of a facility with a Title V operating permit shall pay an Annual Title V Fee of $313 per permit to operate.
REINSPECTION FEE: If, during an inspection for the purpose of issuing (1) an initial permit to operate, (2) renewal of a permit to operate, or (3) any type of Title V operating permit, a permit unit’s operation cannot be evaluated or approved due to circumstances beyond the control of the Air Quality Management District, the owner/operator shall pay the actual cost of a reinspection. The fee for the reinspection shall be assessed in accordance with the hourly rate established in Section 308.12.

EMISSION REDUCTION CREDIT BANKING FEE: Any person who requests to deposit emission reduction credits in the District credit bank or to withdraw emission reduction credits from the District credit bank shall pay a fee based on actual hours spent by the District staff in processing the request. The fee shall be assessed in accordance with the hourly rate established in Section 308.12.

ALTERNATIVE COMPLIANCE APPLICATION PROCESSING FEE: Any person who submits an application for alternative compliance shall pay an application processing fee of $189 per hour.

PUBLIC NOTIFICATION FEE: In addition to the fees required by this rule, the applicant shall pay the actual cost of public notification if a new permit, a permit modification, a Title V operating permit, the deposit of emission reduction credits, or any other actions that must be publically noticed as determined by the Air Pollution Control Officer.

NOTIFICATION OF INITIAL PERMIT FEE OR PERMIT RENEWAL FEE DUE: After the provisions for granting permits as set forth in Division 26 of the Health and Safety Code and these rules and regulations have been complied with or on the renewal date of a permit to operate, the Title V operating permit, or any other action subject to this rule, the applicant/permitee will be notified by mail of the fee due and payable and the date the fee is due. If the fee is not paid by the specified due date, the fee shall be increased by one half the amount and the applicant/permitee shall be notified by mail of the increased fee. If the increased fee is not paid within 30 days after notice the application/permit will be canceled and the applicant/permitee will be notified by mail. A canceled application/permit may be reinstated by payment of the applicable permit fee plus fee increases.

NEGOTIATED PAYMENT SCHEDULE: If a permittee certifies to the Air Pollution Control Officer’s satisfaction through declaration that payment in full of permit to operate renewal fees would result in undue financial hardship, the District may negotiate an amended fee payment schedule, provided that the amended schedule includes reimbursing the District for any increased costs of processing the extra payments. Failure to make any payments by any negotiated due date may result in penalties as otherwise authorized in this rule and/or cancellation of the permit.

CONSUMER PRICE INDEXING OF FEES: Except as provided in Section 404, permit fees may be adjusted on an annual basis. If the Air Pollution Control Officer anticipates the need for a change, the adjustment must initially be proposed as part of the annual budget process. The proposed rate change must meet the requirements of the California Health and Safety Code, including Sections 41512.7(b) and 42311(a). The rate change must be noticed as part of the proposed and final budgets. If the Board of Directors approves a fee change with the final budget, the Air Pollution Control Officer may adjust fees by up to the maximum rate approved by the Board.

FEE INCREASES: Fees shall be increased as follows unless the increase would exceed the limitations in California Health and Safety Code Section 42311(a), in which case, the fee increases will be whatever lesser amount is consistent with 42311(a). Section 403 does not apply where there is a percent listed in the table below:
