

SAN LUIS OBISPO COUNTY AIR POLLUTION CONTROL DISTRICT

RULE 501 -- GENERAL BURNING PROVISIONS

(Adopted 8/2/76) (Revised 7/5/77, 1/10/89, 1/26/2000, and 7/25/2001)

- A. APPLICABILITY. The provisions of this Rule shall apply within the boundaries of San Luis Obispo County to any person who participates in non-agricultural open burning or developmental burning or who burns green waste material in an open outdoor fire.
- B. DEFINITIONS. For the purposes of this Rule, the following definitions shall apply:
1. "Backyard Burning": The burning of green waste material by occupants of one and two family dwellings. This type of burning is also known as dooryard or green waste burning.
 2. "Burn Barrel": Any equipment, article, machine, contrivance, structure or part of a structure, other than a multiple chamber incinerator, used to dispose of combustible material by burning.
 3. "Developmental Burning": The open burning of wood waste from trees, vines or bushes on property being developed for commercial or residential use.
 4. "Green Waste Material": Any grass clippings, leaves, weeds, plant prunings, shrubbery, tree trimmings or branches, Christmas trees or clean yard waste. Any green waste material allowed to be burned must be dry as specified in Subsection F.2.e.
 5. "Household Rubbish": Any paper, paper products, food waste or trash normally accumulated by a family in the course of ordinary day-to-day living.
 6. "No-Burn Day": Any day on which agricultural burning is prohibited by the California Air Resources Board (ARB) or the San Luis Obispo County Air Pollution Control District (District). The District may declare any permissive burn day designated by the ARB to be a no-burn day if necessary to maintain suitable air quality.
 7. "Open Outdoor Fire": Any combustion of combustible material of any type outdoors, in the open, not in any enclosure, where the products of combustion are not directed through a flue.
 8. "Permissive Burn Day": Any day on which the ARB or the District does not prohibit burning of agricultural wastes.
 9. "Smoke Sensitive Sites": Schools, day care centers, parks, hospitals, nursing homes and other public or private health care facilities.

10. "Urban Reserve Line (URL)": A boundary separating urban/suburban land uses and rural land uses. The urban reserve line defines growth areas around urban centers in which the county, or the county and affected city, will actively coordinate plans, policies and standards relating to building construction, subdivision development, land use and zoning regulations, street and highway construction, public utility systems, and other matters related to the orderly development of urban areas.
11. "Village Reserve Line (VRL)": A boundary which distinguishes developed areas from the surrounding rural countryside. Village reserve lines are established for: Black Lake, California Valley, Callender/Garrett, Creston, Garden Farms, Heritage Village, Los Berros, Los Ranchos/Edna, Oak Shores, Palo Mesa, Pozo, San Simeon Acres, Whitley Gardens and Woodlands.

C. EXEMPTIONS

1. The following are exempt from Section D, General Requirements:
 - a. A fire set by or permitted by a public officer, if such fire has been authorized in writing by the Air Pollution Control Officer (APCO) and is in the performance of the official duty of such public officer, and such fire, in the opinion of such public officer, is necessary for any of the following:
 - 1) The prevention of a fire hazard which cannot be abated by any other reasonable means.
 - 2) The instruction of public employees in the methods of fighting fires.
 - 3) Disease or pest prevention, where there is an immediate need for and no reasonable alternative to burning.
 - b. Fires permitted by the APCO on property used for industrial purposes for the purpose of instruction of employees in methods of fighting fire.
 - c. Fires authorized for agricultural burning for disposal of agricultural waste, as defined in Rule 105, Subsection A.3, and pursuant to Rule 502.
 - d. Fires permitted by the APCO related to the use of farm equipment in agricultural operations.
 - e. Any other fire authorized in writing by the APCO for the performance of official duty of any public official, if such permission is given for the purpose of right-of-way clearing by a public entity or utility, levee, reservoir, and ditch maintenance, or the prevention of a fire hazard, which fire is, in the opinion of such official, necessary. Such authorization shall be

predicated upon guidelines for meteorological data promulgated by the Air Resources Board of the State of California establishing the conditions of burning.

- f. Fires used only for cooking of food for human beings or for recreational purposes. Such fires shall not include the burning of petroleum wastes, tires, tar, tar paper, rubber or plastics or any other highly polluting materials.
 - g. Any fire if it can be demonstrated that nothing but carbon dioxide, nitrogen dioxide or water vapor is emitted under all operating conditions.
 - h. Use of backfires to save life or valuable property pursuant to the Public Resources Code, Section 4426.
 - i. The abatement of fires pursuant to Chapter 2, (commencing with Section 13055) of Part 1 of Division 12 of the Health and Safety Code.
2. Any person conducting backyard burning in the areas of the county that are not specifically defined in Subsection F.1 is exempt from the requirements of Subsection F.1.
- D. GENERAL REQUIREMENTS. No person shall ignite, cause to be ignited, permit to be ignited, or suffer, allow or maintain any open outdoor fire within the District unless otherwise specified in Section C, E or F, or Subsection G.3.
- E. DEVELOPMENTAL BURNING REQUIREMENTS. Effective February 25, 2000, developmental burning shall be prohibited within San Luis Obispo County except as provided in Subsection E.1.
- 1. Developmental burning of tree stumps and other wood waste grown on the property may be allowed with prior APCO approval and a burn permit issued by the District, provided there are no technically feasible alternatives to burning as determined by a District inspection and review.
- F. GREEN WASTE BURNING REQUIREMENTS
- 1. The backyard burning of green waste material in an open outdoor fire shall be prohibited according to the following compliance schedule:

Compliance Schedule
 - a. Backyard burning is prohibited within the Urban Reserve Lines for Arroyo Grande, Atascadero, Avila Beach, Baywood Park, Cambria, Cayucos, Grover Beach, Los Osos, Morro Bay, Oceano, Paso Robles, Pismo Beach, San Luis Obispo, Santa Margarita, and Shandon, and within the Village Reserve Lines for Black Lake, Creston, Garden Farms, Heritage Ranch, Los

Ranchos/Edna, Oak Shores, San Simeon Acres, Whitley Gardens, and Woodlands.

- b. Effective September 1, 2002, backyard burning shall be prohibited within the Urban Reserve Lines for Nipomo, San Miguel, and Templeton, and within the Village Reserve Lines for Callender/Garrett, Los Berros, and Palo Mesa.
 - 1) Prior to September 1, 2002, District staff shall return to the Board with a staff report detailing the effectiveness of alternatives to backyard burning in the areas designated in Subsection F.1.d. The Board shall conduct a duly noticed public hearing to consider the staff report and public testimony and determine whether the date specified in Subsection F.1.d should become effective or be extended.
 - 2) Prior to September 1, 2002, a special burn permit issued by the Air Pollution Control District shall be required in order to burn within 1,000 feet of the outer boundary of a smoke sensitive site.
2. Backyard burning of green waste material in an open outdoor fire by occupants of one or two family dwellings is allowed in all other areas not specified in Subsection F.1, at designated times throughout the year subject to strict control by fire protection agencies, with the following restrictions:
 - a. The green waste material to be burned must be dry as specified in Subsection F.2.e and must have originated on the property where the fire is located.
 - b. No person shall conduct open outdoor burning on days designated as no-burn days by the ARB or the District. The ARB will declare each day as a permissive burn day or a no-burn day. The APCO may prohibit burning, even if it has already been declared as a permissive burn day, in order to avoid a significant degradation of the air quality.
 - c. Effective January 26, 2000, the burning of household rubbish, grass clippings, piled leaves, piled pine needles or products containing rubber, plastic, tar, creosote or hydrocarbons in an open outdoor fire is prohibited.
 - d. On permissive burn days, burning may take place only between the hours of 10:00 a.m. and 4:00 p.m.
 - e. Drying Times: Material should be dry and reasonably free of surface moisture. A minimum of three (3) weeks from the time of cutting will be required for prunings and small branches; six (6) weeks for trees and large branches.

- f. No burning shall be allowed if measurable rain has fallen within five (5) days immediately prior to the proposed burn.
 - g. Piles of shrubbery and tree prunings shall be no larger than four (4) feet high and six (6) feet in diameter.
 - h. Accelerants or flammable liquids shall not be used to start fires in burn piles. Commercially available starter fluid or lighter fluid is allowed.
 - i. Burning piles shall be tended by a responsible adult at all times and a functioning water hose capable of extinguishing the fire shall be available at all times.
 - j. Burn piles shall be located a minimum of fifty (50) feet from the property line of neighboring residences and a minimum of thirty (30) feet from any structure, including wooden fences, on the same property.
 - k. At least fifteen (15) feet of clearance to mineral soil shall be provided between burn piles and any vegetation or other combustible material, including but not limited to grass, weeds, trees, shrubs, and wood piles.
 - l. No person shall cause a nuisance by allowing smoke or flying ash produced while burning to impact neighboring residences and property.
3. The cost of putting out any fire in violation of the terms of this Rule may be imposed on the person responsible for setting and/or maintaining the fire.

G. BURN BARREL REQUIREMENTS

1. Effective January 26, 2000, burning of green waste or products containing rubber, plastic, tar, creosote or hydrocarbons in burn barrels is prohibited.
2. Effective January 26, 2000, burning in burn barrels is prohibited inside all areas defined by Urban Reserve Lines or Village Reserve Lines.
3. Effective January 26, 2000, outside of the URLs and VRLs, burning in burn barrels shall be confined to the burning of household rubbish by occupants of one or two-family dwellings. Burn Barrels must have a permit issued by California Department of Forestry (CDF).
