Facility Emissions Public Report EI Colton LLC

Facility Name	EI Colton LLC
ARB ID	101667
Primary Sector	Electricity Generation
Secondary Sectors	
NAICS Code	221112 - Fossil Fuel Electric Power Generation
Facility Description	Natural gas fired simple cycle GE LM6000 Gas Turbine Generator. By contract no more than 49 net MW output may be generated.
Address	2040 W. Agua Mansa Road Colton, California 92324 United States
Geographic Location	34.04136, -117.36039
Air Basin	SOUTH COAST
District	SOUTH COAST AQMD
County	San Bernardino
Facility Contact	Wayne Feragen
Contact Email	wferagen@noresco.com
Contact Phone	909-825-1679
Reporting Year	2010
Reporting Period	01/01/2010 - 12/31/2010

Overall Mandatory Reporting Status **Verified**

Note: Data shown here are subject to change. The data may not have not undergone independent third party verification or ARB staff review. Where errors are discovered mechanisms are available to allow revisions to the data. For this reason subsequent reports may show different emissions or other data than that provided here.

Fee Regulation data are displayed only for those reporters subject to additional reporting for the GHG fee regulation.

Third party verification is not required for supplemental Fee Regulation submission data.

TOTAL EMISSIONS: EI Colton LLC

* All emission values are displayed in metric tons.

CO2 Biomass values not included in the CO2 Eq. sum.

The summed values table includes data reported for the facility and its associated units.
