

# ADVISORY

(WORKSHOP)

Number 2

Date: June 25, 1984

## Legal Requirements Regarding Sulfur in Diesel Fuel

The purpose of this advisory is to explain the regulation regarding sulfur in diesel fuel and to invite you to a workshop on the development of an enforcement program.

### Legal Requirements

Section 2252(d) of Title 13 of the California Administrative Code states, "Effective January 1, 1985, no person shall sell, produce for sale, offer for sale, or deliver for sale in the South Coast Air Basin or Ventura County any diesel fuel, except that specifically exempted by the Executive Officer pursuant to subdivision (h) for use in motor vehicles which has a sulfur content greater than 500 parts per million (0.05 percent) by weight". The area subject to this regulation is mapped on the back of this advisory.

### Workshop

To prepare for the upcoming regulation regarding sulfur in diesel fuel, the ARB staff will conduct a workshop in Los Angeles on September 12, 1984, at the Los Angeles State Building, 107 South Broadway, Los Angeles, Room 1122. This workshop is aimed at developing a proposed enforcement policy and sampling methodology that will achieve the intent of Section 2252(d). Please give the regulation some thought and be prepared to interact at the workshop. Also, please submit your questions in writing to the address listed below by September 1, 1984.

If you have any questions about the regulation or require additional information, please call Roy Jackson at (916) 322-6033.
