

Advisory

To: Owners or Operators of Ocean-Going
Vessels Visiting California Ports

Number 363

February 2007

Clarification of Emergency Equipment Aboard Ocean-Going Vessels Visiting California Ports

The purpose of this advisory is to clarify regulations that apply to owners or operators of ocean-going vessels. Specifically, this advisory pertains to the *Airborne Toxic Control Measure for Auxiliary Diesel Engines and Diesel-Electric Engines Operated on Ocean-Going Vessels Within California Waters and 24 Nautical Miles of the California Baseline* (Title 17 CCR Section 93118) and *Emission Limits and Requirements for Auxiliary Diesel Engines and Diesel-Electric Engines Operated on Ocean-Going Vessels within California Waters and 24 Nautical Miles of the California Baseline* (Title 13 CCR Section 2299.1). As a courtesy, we are sending this advisory to the representatives of the shipping industry and other affected parties.

The Air Resources Board Enforcement Division staff determined that emergency equipment aboard ocean-going vessels is exempt from Title 17 CCR Section 93118 and Title 13 CCR Section 2299.1.

If you have any questions regarding this advisory, please contact Richard C. Smith, Manager, Strategic Environmental Investigations & Enforcement Section at (916) 445-1295. Written inquiries may be addressed to:
