# Advisory

To: ALL AIR POLLUTION  
CONTROL DISTRICTS

Number 86

August 7, 1992

## CONTINUOUS EMISSION MONITORING (CEM) EXCESS EMISSION REPORTING VIA FAX

The purpose of this Advisory is to inform local air pollution control districts that CEM excess emission reports should now be submitted to the Air Resources Board via FAX on the attached reporting form (or an equivalent district form). **The FAX number is (916) 445-5745.**

### CEM Excess Emission Reporting Requirements of State Law

California Health and Safety Code Section 427096 mandates any violation of any emission standard to which a stationary source is required to conform, as indicated by a CEM, shall be reported by the operator of the source to the district within 96 hours after such an occurrence. The district shall, in turn, report the violation to the Air Resources Board within five working days after receiving the report of the violation from the operator.

In the past, local district staff have typically telephoned in these reports to our complaint hot-line. Submittal of these reports on the attached form via FAX will facilitate the reporting process.

If you have any questions regarding this Advisory, please contact Verna Ruiz at (916) 322-3034 or Bob Leonard at (916) 322-6034.
