

SETTLEMENT AGREEMENT AND RELEASE

This SETTLEMENT AGREEMENT AND RELEASE (hereinafter "Agreement") is entered into between the STATE OF CALIFORNIA AIR RESOURCES BOARD (hereinafter "CARB") 1001 I Street, Sacramento, California 95814, and CAL ELECTRO INCORPORATED (hereinafter "CEI"), 3710 Electro Way, Redding, California 96002.

I. RECITALS

- (1) California Health and Safety Code section 44011.6 (HSC § 44011.6) established the Heavy-Duty Vehicle Inspection Program (HDVIP). It authorizes CARB to inspect on-road heavy-duty vehicles for excessive smoke emissions and engine tampering and to issue citations accordingly. The program also requires the vehicle owner to repair its engines that exceed the prescribed CARB smoke opacity standards, perform a post-repair opacity test, and submit proof of repairs and any assessed penalties under the regulations of the HDVIP, chapter 3.5, California Code of Regulations, title 13, sections 2180-2188 (13 CCR §§ 2180-2188).
- (2) HSC § 43701 provides that CARB shall adopt regulations that require owners or operators of heavy-duty diesel motor vehicles to perform regular inspections of their vehicles for excessive smoke emissions.
- (3) 13 CCR § 2190 *et seq.* were adopted under the authority of HSC § 43701 and, with limited exceptions, which are not applicable here, apply to all heavy-duty diesel powered vehicles with gross vehicle weight ratings greater than 6,000 pounds that operate on the streets or highways within the State of California.
- (4) 13 CCR § 2190 *et seq.* authorize the Periodic Smoke Inspection Program (PSIP) which requires the owners and operators of California based vehicle fleets of two or more heavy-duty diesel motor vehicles with gross vehicle weight ratings greater than 6,000 pounds that operate on the streets or highways within the State of California to conduct annual smoke opacity inspections of their vehicles equipped with engines that are four years old or older.
- (5) 13 CCR § 2192(a) requires inter alia that the owner of the vehicle "[t]est the vehicle for excessive smoke emissions periodically according to the inspection intervals specified in section 2193(a), (b), and (c)"; "[m]easure the smoke emissions for each test..."; "[r]ecord the smoke test opacity levels and other required test information as specified in section 2194..." and "[k]eep the records specified in section 2194 for two years after the date of inspection."
- (6) HSC § 43016 states, "Any person who violates any provision of this part, or any order, rule, or regulation of the state board adopted pursuant to this part, and for which there is not provided in this part any other specific civil penalty or fine, shall

SETTLEMENT AGREEMENT AND RELEASE

CARB and CEI

Page 2 of 9

be subject to a civil penalty of not to exceed five hundred dollars (\$500.00) per vehicle."

- (7) CARB considers testing, measuring, recording, and recordkeeping to be critical components in reducing excessive smoke emissions from these heavy-duty vehicles.
- (8) CARB contends CEI failed to test, measure, record, and maintain records of smoke emissions for its fleet of heavy-duty diesel vehicles for year 2016 in violation of 13 CCR § 2190 *et seq.*
- (9) HSC §§ 39650-39675 mandate the reduction of the emissions of substances that have been determined to be toxic air contaminants. In 1998, following an exhaustive ten-year scientific assessment process, CARB identified particulate matter (PM) from diesel-fueled engines as a toxic air contaminant. In-use on-road diesel vehicles are powered by diesel fueled engines that emit toxic PM. On-road vehicles are controlled under the Truck and Bus regulation, as codified in 13 CCR § 2025.
- (10) 13 CCR § 2025(r) sets forth the requirements for reporting all vehicles with engines subject to the regulation if the owner of a fleet has elected to utilize the compliance options of 13 CCR §§ 2025(f)(4), 2025(g)(3), 2025(g)(4), 2025(h), 2025(i), the credits of 13 CCR § 2025(j), and the agricultural provisions of 13 CCR § 2025(m), single-engine and two-engine street sweeper provisions of 13 CCR § 2025(n), extension or exemptions for vehicles used exclusively in NOx exempt areas of 13 CCR § 2025(p)(1), the extension for work trucks of 13 CCR § 2025(p)(2), and the low-use vehicle provision of 13 CCR § 2025(p)(4).
- (11) Failure to comply with the requirements of 13 CCR § 2025 is a violation of state law resulting in penalties. HSC §§ 39674(a) and (b) authorize civil penalties for the violation of the programs for the regulation of toxic air contaminants not to exceed one thousand dollars (\$1,000) or ten thousand dollars (\$10,000), respectively, for each day in which the violation occurs.
- (12) 13 CCR § 2025(e)(8) states: "All information specified in 13 CCR § 2025(r) must be reported to the Executive Officer."
- (13) CEI has elected to utilize the compliance options/credits/provisions of section 13 CCR § 2025(p)(4).
- (14) CARB has documented that CEI failed to report all vehicles with engines subject to the regulation for which the fleet owner has elected to utilize the compliance options of 13 CCR § 2025(p)(4).

SETTLEMENT AGREEMENT AND RELEASE

CARB and CEI

Page 3 of 9

- (15) In order to resolve these alleged violations, CEI has taken, or agreed to take, the actions enumerated below under "RELEASE". Further, CARB accepts this Agreement in termination and settlement of this matter.
- (16) In consideration of the foregoing, and of the promises and facts set forth herein, the parties desire to settle and resolve all claims, disputes, and obligations relating to the above-listed violations, and voluntarily agree to resolve this matter by means of this Agreement. Specifically, CARB and CEI agree as follows:

II. TERMS AND RELEASE

In consideration of CARB not filing a legal action against CEI for the alleged violations referred to above, and CEI's payment of the penalties set forth in Section 1 below, CARB and CEI agree as follows:

- (1) Upon execution of this Agreement, the sum of ten thousand, eight hundred dollars (\$10,800.00) shall be paid on behalf of CEI no later than July 6, 2018, as follows:
- \$10,800.00 payable to the Air Pollution Control Fund

Please send the signed Settlement Agreement and any future mailings or documents required per the terms of this Settlement Agreement to:

**Mr. Christopher Patno
Air Resources Engineer
California Air Resources Board
Enforcement Division
9480 Telstar Avenue, Suite 4)
El Monte, California 91731)**

Please send the payment along with the attached "Settlement Agreement Payment Transmittal Form" (Attachment A) to:

**California Air Resources Board
Accounting Office
P.O. Box 1436
Sacramento, California 95812-1436**

- (2) If the Attorney General files a civil action to enforce this settlement agreement, CEI shall pay all costs of investigating and prosecuting the action, including expert fees, reasonable attorney's costs, and costs.

- (3) It is further agreed that the penalties described in "Terms and Release", paragraph 1 are punitive in nature, rather than compensatory. Furthermore, the penalty is intended to deter and punish CEI for violations of state environmental statutes, and these penalties are payable to and for the benefit of CARB, a governmental unit. Therefore, it is agreed that these penalties imposed on CEI by CARB arising from the facts described in recital paragraphs (1) through (14) are non-dischargeable under 11 United States Code § 523 (a)(7), which provides an exception from discharge for any debt to the extent such debt is for a fine, penalty or forfeiture payable to and for benefit of governmental unit, and is not compensation for actual pecuniary loss, other than certain types of tax penalties.
- (4) CEI shall not violate HSC §§ 43701 *et seq.*, 44011.6 *et seq.*, and 13 CCR §§ 2180 *et seq.*, 2190 *et seq.*, and 2485 *et seq.*
- (5) CEI shall comply with one or both of the following options to attend the California Council on Diesel Education and Technology (CCDET I) class, (SAE J1667 Snap Acceleration Smoke Test Procedure for Heavy-Duty Diesel Powered Vehicles) as described on the CCDET webpage, ccdet.org. This class is conducted by various California Community Colleges and instructs attendees on compliance with the PSIP, the ECL regulation and the HDVIP.
- (a) CEI shall have the fleet maintenance manager (or equivalent) and all staff performing opacity tests for compliance with PSIP and the HDVIP attend the CCDET I class. Proof of CCDET I completion shall be provided to CARB within six months of the date of this Agreement and be maintained in each applicable employee's file for the term of his or her employment.
- (b) If CEI uses a contractor to perform the annual smoke opacity testing required under the PSIP, in addition to having the fleet maintenance manager (or equivalent) attend the CCDET I course, CEI shall obtain proof that the contractor's staff conducting the smoke opacity tests completed the CCDET I course within the past four years. This proof of CCDET I completion shall be provided to CARB with PSIP records as required by this Agreement and be maintained with the annual PSIP records.
- (6) CEI shall comply with the following options to attend the CCDET II class (Diesel Exhaust After Treatment and Maintenance), described on the CCDET webpage, ccdet.org. This class is conducted by various California Community Colleges and instructs attendees on California's emission regulations and the proper care and maintenance of diesel exhaust after-treatment systems (DEATS).
- (a) CEI shall have the fleet maintenance manager (or equivalent) and all staff responsible for maintenance of DEATS attend the CCDET II class. Proof of CCDET II completion shall be provided to CARB within six months of the date of this Agreement and also be maintained in each applicable employee's file for the term of his or her employment.

SETTLEMENT AGREEMENT AND RELEASE

CARB and CEI

Page 5 of 9

- (b) In case CEI uses a contractor for the maintenance of DEATS, in addition to having the fleet maintenance manager (or equivalent) attend the CCDET II course, CEI shall obtain proof that the contractor's staff maintaining the DEATS device(s) completed the CCDET II course within the last four years. This proof of the CCDET II completion shall be provided by CEI to CARB within six months of the date of this settlement and be maintained with the DEATS installation and maintenance records.
- (c) In case CEI is unable to find a CCDET II certified contractor within a radius of 25 miles from its yard for the maintenance of DEATS, in addition to having the fleet maintenance manager (or equivalent) attend the CCDET II course, CEI shall contract only with the authorized verified diesel emission control strategy installer(s) or original equipment manufacturer distributor(s) for the maintenance of DEATS. The proof of the CCDET II completion for the fleet maintenance manager (or equivalent) shall be provided by CEI to CARB within six months of the date of this settlement and be maintained with the DEATS installation and maintenance records.
- (7) As is typically required, CEI shall submit copies of all PSIP compliance records for the two years (2017 and 2018) after the close of the audit to CARB by January 31 of the following year. CARB acknowledges that CEI has already submitted copies of all PSIP compliance records for year 2017 and has therefore complied with that requirement. CEI must still submit copies of all PSIP compliance records for year 2018 to CARB by January 31 of the following year. **Copies shall be addressed to the attention of Mr. Christopher Patno at the California Air Resources Board, Enforcement Division, 9480 Telstar Avenue, Suite 4, El Monte, California 91731.** CARB reserves the right to visit any CEI fleet location at any time to conduct compliance audits for the HDVIP and PSIP, or any other applicable CARB program.
- (8) CEI shall complete Low NOx Software Upgrades (reflash) on all applicable heavy-duty diesel engines operating in California and report to CARB within 45 days of this agreement.
- (9) CEI shall remain in compliance with the ECL regulation as codified in 13 CCR § 2183.
- (10) CEI shall comply with the requirements for off-road vehicles set forth in 13 CCR § 2449.
- (11) CEI shall instruct all employees who operate diesel-fueled vehicles to comply with the idling regulations set forth in 13 CCR § 2485, within 45 days of this Agreement.
- (12) CEI shall not violate the Truck and Bus regulation as codified in 13 CCR § 2025.

SETTLEMENT AGREEMENT AND RELEASE

CARB and CEI

Page 6 of 9

- (13) CEI shall submit proof of compliance with the Truck and Bus regulation (as codified in 13 CCR § 2025), within 45 days of the execution of this Agreement, to **Mr. Christopher Patno, Air Resources Engineer, California Air Resources Board, Enforcement Division, 9480 Telstar Avenue, Suite 4, El Monte, California 91731.**
- (14) This Agreement shall apply to and be binding upon CEI, and its officers, directors, receivers, trustees, employees, successors and assignees, subsidiary and parent corporations and upon CARB and any successor agency that may have responsibility for and jurisdiction over the subject matter of this Agreement.
- (15) This Agreement constitutes the entire agreement and understanding between CARB and CEI concerning the subject matter hereof, and supersedes and replaces all prior negotiations and agreements between CARB and CEI concerning the subject matter hereof.
- (16) No agreement to modify, amend, extend, supersede, terminate, or discharge this Agreement, or any portion thereof, is valid or enforceable unless it is in writing and signed by all parties to this Agreement.
- (17) Severability. Each provision of this Agreement is severable, and in the event that any provision of this Agreement is held to be invalid or unenforceable, the remainder of this Agreement remains in full force and effect.
- (18) This Agreement shall be interpreted and enforced in accordance with the laws of the State of California, without regard to California's choice-of-law rules.
- (19) This Agreement is deemed to have been drafted equally by the Parties; it will not be interpreted for or against either party on the ground that said party drafted it.
- (20) Senate Bill 1402 (Dutton, Chapter 413, statutes of 2010) requires CARB to provide information on the basis for the penalties it seeks (HSC § 39619.7). This information, which is provided throughout this settlement agreement, is summarized here:

The manner in which the penalty amount was determined, including a per unit or per vehicle penalty.

Penalties must be set at levels sufficient to discourage violations. The penalties in this matter were determined in consideration of all relevant circumstances, including the eight factors specified in HSC §§ 42403 and 43024.

SETTLEMENT AGREEMENT AND RELEASE

CARB and CEI

Page 7 of 9

PSIP Violations

The per vehicle penalty for the PSIP violations involved in this case is a maximum of \$500.00 per vehicle per violation per year. The penalty obtained for the PSIP violations involved in this case is \$7,500.00 for 15 violations involving 15 vehicles, or \$500.00 per vehicle per violation.

Truck and Bus Violations

The per unit penalty for the Truck and Bus violations involved in this case is a maximum of \$1,000 per vehicle per day for strict liability violations or \$10,000 per vehicle per day for negligent or intentional violations.

The penalty obtained for the Truck and Bus violations involved in this case for failure to report all required information for all vehicles in the fleet is \$3,300.00 or \$300.00 per vehicle per violation for 11 vehicles.

The provision of law the penalty is being assessed under and why that provision is most appropriate for that violation.

PSIP Violations

The penalty provision being applied to the PSIP violations is HSC § 43016 because CEI failed to test, measure, record, and maintain records of smoke emissions from its fleet of heavy-duty diesel vehicles for the year 2016 in violation of the PSIP regulation in 13 CCR § 2190 *et seq.*, for 15 vehicles. Since the PSIP regulation was adopted pursuant to authority granted in Part 5 of Division 26 of the HSC and since there is no specific penalty or fine provided for PSIP violations in Part 5, HSC § 43016 is the applicable penalty provision.

Truck and Bus Violations

The penalty provision being applied for the Truck and Bus regulation (13 CCR § 2025) violations in this case is HSC § 39674 because the Truck and Bus regulation is an Airborne Toxic Control Measure adopted pursuant to authority contained in HSC §§ 39002 *et seq.*, 39650-39675 and because CEI failed to report all required information for all vehicles in the fleet for which they have elected to utilize compliance options/credits/provisions as required in 13 CCR § 2025(r).

Is the penalty being assessed under a provision of law that prohibits the emission of pollution at a specified level, and, if so a quantification of excess emissions, if it is practicable to do so.

PSIP Violations

The PSIP provisions cited above do prohibit emissions above a specified opacity or level of g/hp-hr. However, since the hours of operation of the noncompliant units involved and their individual emission rates are not known, it is not practicable to quantify the excess emissions.

Truck and Bus Violations

The provisions cited above do not prohibit emissions above a specified level.

- (21) CEI acknowledges that CARB has complied with Senate Bill 1402 in prosecuting or settling this case. Specifically, CARB has considered all relevant facts, including those listed at HSC § 43024, has explained the manner in which the penalty amount was calculated, has identified the provision of law under which the penalty is being assessed and has considered and determined that this penalty is being assessed under a provision of law that prohibits the emission of pollutants at a specified level.
- (22) Penalties were determined based on the unique circumstances of this matter, considered together with the need to remove any economic benefit from noncompliance, the goal of deterring future violations and obtaining swift compliance, the consideration of past penalties in similar cases, and the potential costs and risk associated with litigating these particular violations. Penalties in future cases might be smaller or larger on a per unit basis.
- (23) The penalty was based on confidential settlement communications between CARB and CEI that CARB does not retain in the ordinary course of business. The penalty is the product of an arms length negotiation between CARB and CEI and reflects CARB's assessment of the relative strength of its case against CEI, the desire to avoid the uncertainty, burden and expense of litigation, obtain swift compliance with the law and remove any unfair advantage that CEI may have secured from its actions.
- (24) Now therefore, in consideration of the payment on behalf of CEI to the Air Pollution Control Fund and the Peralta Colleges Foundation (or San Joaquin Valley Air Pollution Control District, if applicable), CARB hereby releases CEI and their principals, officers, agents, predecessors and successors from any and all claims, CARB may have or have in the future based on the circumstances described in paragraphs (1) through (14) of the Recitals. The undersigned represent that they have the authority to enter into this Agreement.
