How Penalty Funds are Handled at the ARB

All penalty checks must be made out to the Air Pollution Control Fund which is established in the Health and Safety Code. In cases that are settled by written settlement agreement, the checks are mailed to the ARB investigator responsible for the case for recording and deposit in the Air Pollution Control Fund. In cases that are initiated by citation, the citation provides the address for the checks to be mailed to. ARB staff then records these checks and directs them for deposit in the Air Pollution Control Fund.
