

Subject:Research study - B99

Date:Fri, 15 Dec 2006 12:01:30 -0800

From:DAVID CRAFT <dcraft@mbuapcd.org>

To:rokamoto@arb.ca.gov

Bob - Will it be important to also test B99 in addition to the B100 already proposed for testing? One might argue that the toxic emissions will be different, unless emissions data is produced to show that the emissions difference is not significant.

Sincerely,

David Craft
